NOTE REGARDING FORWARD-LOOKING STATEMENTS

Certain matters discussed in this Registration Statement on Form 10SB are "forward- looking statements." These forward-looking statements can generally be identified as such because the context of the statement will include words such as the Company "believes," "anticipates," "expects," "estimates" or words of similar meaning. Similarly, statements that describe the Company's future plans, objectives or goals are also forward-looking statements. Such forward-looking statements are subject to certain risks and uncertainties which are described in close proximity to such statements and which could cause actual results to differ materially from those anticipated as of the date of this report. Shareholders, potential investors and other readers are urged to consider these factors in evaluating the forward-looking statements and are cautioned not to place undue reliance on such forward-looking statements. The forward-looking statements included herein are only made as of the date of this report and the Company undertakes no obligation to publicly update such forward-looking statements to reflect subsequent events or circumstances.

PART I, ITEM 1. DESCRIPTION OF BUSINESS

The genesis of Titan Motorcycle Co. of America ("Titan") was a small retail aftermarket motorcycle shop known as Paragon Custom Cycles in Phoenix, Arizona, which was owned and operated by the Company founder, Patrick Keery. Paragon specialized in aftermarket Harley Davidson™ customizations, repairs and upgrades, as well as the sale of a wide range of optional equipment and parts for the Harley Davidson line.

Through the design talents of its founder, Paragon became known for its unique award winning Harley Davidson customizations. It was not unusual for such customizations to increase a stock vehicle's cost by 50% to 100% of the original purchase price. In the customizing process, a good deal of factory installed hardware was removed and discarded and major design restrictions improved.

Paragon evolved to designing and building custom large V-twin cylinder motorcycles from the ground up using various OEM parts. Although various configurations are used both domestically and internationally to power

motorcycles; including one, two and four cylinder engines, the engine of choice in the United States for the larger displacement cruiser and touring bike classes of motorcycles is the V-twin engine. This engine design features two cylinders configured in a 45(degree) "V" shaped orientation.

By 1994, the aftermarket Harley Davidson parts market had gestated to the point where all major and minor components, including engine and drive trains, needed to design and build a unique custom motorcycle from inception were readily available. While quality and continuity of supply were major challenges, a well connected shop owner could secure the necessary parts and labor to build the customer's dream creation.

Paragon, under the design and engineering skills of its president, Patrick Keery, became the shop of choice for more and more customers who sought him out to have their concept bikes built.

Initially, the process was somewhat long and tedious. It was not unusual for the total elapsed time from the design concept to delivery of the finished product to be as long as six months. The selling price for such vehicles could easily reach the \$40,000 to \$50,000 range.

In late 1994, Patrick approached his principal financial backer (and father) with the idea of creating an integrated manufacturing company to dramatically reduce the cost of production while enhancing delivery for new and unique custom designed and manufactured V-twin cruiser motorcycle products. This approach did not require the essential rebuilding of other large V-twin production configurations. The idea was to implement this design and production concept in a disciplined "cell" manufacturing process and environment where a small team or single individual artisan would essentially build the custom motorcycle using readily available and scientifically arranged component parts. The disciplined cell manufacturing process is a production methodology whereby a complete motorcycle is built from all components by a single builder/technician, as opposed to an assembly line methodology where a team of individuals assemble a finished motorcycle by repetitive, individual processes such as when one worker puts on the wheels, another worker installs a motor, etc.

The principal suppliers of the Company, and the parts purchased from these suppliers are identified in the table on the following page.

VENDOR	CITY AND STATE	PARTS PURCHASED
S&S CYCLE	VIOLA, WI	MOTORS/MOTOR PARTS
DAYTEC	HESPERIA, CA	FRAMES/SHEET METAL
CUSTOM CHROME	MORGAN HILL, CA	MISC. PARTS
PERFORMANCE MACHINE	LA PALMA, CA	WHEELS/ROTORS
BANDIT MACHINE WORKS	LANCASTER, PA	CLUTCHES
DEANO'S	TEMPE, AZ	PAINT
URSCHEL MANUFACTURING	SCOTTSDALE, AZ	FORWARD CONTROL/PEGS
WORKS PERFORMANCE	CANOGA PARK, CA	SHOCKS
EXTREME MACHINE	PHOENIX, AZ	MACHINED PARTS
JIMS USA	CAMARILLO, CA	TRANSMISSIONS/MOTOR PARTS

There are alternative sources for all items listed in the table. In some cases there might be temporary delays in the manufacturing process while alternate suppliers gear up to meet production level requirements. Because of the current parts inventories of the Company, these delays are not considered to be material.

The present Company was incorporated in 1994 employing the foregoing production techniques. Shortly after the incorporation, it became apparent that the Company needed additional capital to grow and that it would be advantageous to seek out and complete a merger with a publicly held company which, as a result, would provide both a public market and a new source of capital. Readily available was Mojave Financial Services, Inc. At the time, Mojave was essentially inactive. A merger was completed in June of 1996, with Mojave Financial Services, Inc. contributing its capital; and, as the surviving entity, assuming the name Titan Motorcycle Co. of America, a Nevada corporation. Titan Motorcycle Co. of America, the pre-merger entity, was incorporated as an Arizona successor corporation to Paragon on December 12, 1994 and ceased existence pursuant to the foregoing merger and name change. The integrated Company has existed and continues since the date of merger on June 11, 1996.

Research and development activities of the Company are ongoing. In calendar years 1996 and 1997, the Company has expended approximately \$76,000 and \$218,000 respectively in research and development. In the first seven months of 1998, the Company has expended \$113,000 in research and development.

The Company provides a six month warranty for all parts and labor with regard to its motorcycle products. In calendar year 1997, the Company recorded a reserve for warranty expense of \$155,000. The Company has also obtained an extended warranty for the period of six months to two and half years (for a total warranty of 3 years). The Company pays \$230 for each bike for this extended warranty protection.

All present financial statements and other disclosures concerning the Company are based upon the merger accounting. The merger was accounted for as a recapitalization of Titan because the shareholders of Titan controlled the Company after the acquisition. There was no adjustment to the carrying value of the assets or liabilities of Titan in the exchange. The Company is the acquiring entity for legal purposes and Titan is the surviving entity for accounting purposes. In the merger, Titan assumed \$8,000 of debt of Mojave.

Since the merger, Titan has traded as a public entity on a limited market basis. Brokers quoting the stock on the NASD Electronic Bulletin Board are Paragon Capital Corporation of Boca Rotan, Florida (1-800-521-8877); Harold, Thompson, Magid and Company of Jersey City, New Jersey (212-233-2200); Sharpe Capital Corporation of New York, NY (212-791-8700); and Alpine Securities of Salt Lake City, Utah (1-800-274-5588).

In March of 1997, the Company authorized a two-for-one (2:1) forward stock split. In April 1997, November 1997 to January 1998 and February 1998, the Company privately placed 1,000,000, 500,000 and 166,667 shares, respectively, of its Common Stock. In January 1998, the Company agreed to issue an additional 60,000 to an industry publications company as part of an agreement whereby the Company would receive publishing and advertising services. As part of the consideration for this transaction for publishing and advertising services, the Company provided the publishing company with \$125,000 of Titan motorcycles in calendar year 1997 and will provide the publishing company with an additional \$125,000 of Titan motorcycles in December 1998.

The stock transactions referred to in the preceding paragraph raised the total number of issued and outstanding shares of the Company to 16,437,333

as of the current date. Of this amount, the three principal officers collectively hold approximately 61.4% of the issued and outstanding common stock, prior to exercise of existing options. Such individuals would collectively hold 61.9% of the outstanding shares, after the exercise of their current options.

DESCRIPTION OF THE COMPANY

-----

The Company has recently moved to its present manufacturing and distribution facilities at 2222 West Peoria Avenue, Phoenix, Arizona 85029. It presently occupies a leased structure having approximately 64,000 square feet of combined administrative, manufacturing, assembly and distribution space. The Company has a current five year lease on this premises at the rate of \$29,295.00 per month.

It is reasonably anticipated that the present physical facilities should be adequate for the Company's anticipated manufacturing and distribution needs into 1999.

The Company believes it has developed a unique design and manufacturing process for the large customized displacement motorcycle industry. The Company offers eight (8) custom model configurations, all of which lead the competition in power to weight ratios, ride and handling refinements and the capacity for future custom configuration. In addition, the Company brings a unique service to its customers by allowing the customers to specifically "pre-design" the end product down to the customization of colors and finish. The completed product, in its custom design configuration and based upon one of the basic models, can be delivered within eight to ten weeks of an order. Customers not desiring individual customization can choose one of the basic custom models in standard finish and configuration and be assured of prompt delivery, usually from dealer stock.

Titan believes itself to be the market leader in customized V-twin motorcycles as evidenced by its rapidly expanding distribution network. Company owned outlets, new designs and the introduction of two new models in 1998 should insure continuing leadership in this market niche.

This custom manufacturing and service concept is made possible by the application of a small production team or single skilled artisan who is responsible for assembling each unit from component parts. This technician further continues to service his vehicle through road testing and during the warranty period to ensure complete customer satisfaction.

The Company believes it is unique in providing this degree of customization resulting in essentially a "hand built" new vehicle at a cost and design advantage to purchasing a typical stock model V-twin, such as Harley Davidson™, Yamaha™, or Honda™, and paying for customization through an individual shop. Additionally, the customer is assured of state of the art design, assembly and testing technology. For comparison purposes, the price of the basic Titan models range from the top of the line "Gecko", currently selling for \$28,495, to the basic model "Coyote" at \$23,995. This compares to a non-customized similar displacement stock Harley Davidson at approximately \$15,000 to \$20,000. Currently the products of the Company are being distributed through 53 domestic dealers, and 17 foreign dealers with current expansion plans underway.

#### FINANCIAL INFORMATION

-----

The financial information concerning the Registrant's prior years of operation and the first six months of calendar year 1998 is found in Part I, Item 2: Financial

Information.

#### EMPLOYEES

-----

As of March 31, 1998, the Company had 142 full-time employees, of whom 123 work in engineering and manufacturing; seven work full-time in marketing; and 12 work in staff and administration. The Company is not subject to any collective bargaining agreement. The Company anticipates adding supervisory, engineering, manufacturing, marketing and administrative staff as the Company expands its production in 1998.

#### FOREIGN OPERATIONS

-----

The foreign operations of the Company consist solely of sales of its products through non-U.S. distributors of the motorcycles of the Company. In its first year of foreign operations, the revenues from its foreign operations were \$2,032,413.00. Foreign sales in 1997 were \$1,681,613.00. The number of foreign distributors is expanding and the Company anticipates that, with continued expansion in the number of distributors, it will more than double its foreign sales in 1998.

SUBSIDIARIES OF THE COMPANY

The Company has only one subsidiary. Titan Motorcycle GmbH, Alte Hersfelder Str. 30, 36289 Friedewald, Germany is wholly owned by the Company. Titan Motorcycle GmbH was established in April 1998 to set up a marketing organization for the Company in Europe. Its function is to coordinate with and offer support to dealers and other marketing partners in Europe, to organize and participate in trade shows and develop product advertising and promotional activities for Titan and its authorized dealers, and to establish a central office in Europe to handle the Company's business affairs.

MANAGEMENT'S DISCUSSION AND ANALYSIS

The audited financial statements for the last calendar year are enclosed with this Registration Statement and contain the Company's financial statements for the calendar

<sup>1</sup> These figures have been restated to reflect the two-for-one forward split of the stock of the Company which took effect in March 1997.

year ending December 31, 1997. Reference is made to the Consolidated Financial Statements filed with this Registration Statement for greater detail regarding the financial position of the Company. The unaudited half year financial statements of the Company are also included in this Registration Statement.

Effective January 1, 1998, the Company adopted a fiscal accounting period as opposed to the calendar accounting period of prior years. The effect of this change is that all quarters are now comprised of thirteen weeks, ending Saturday at midnight instead of the last calendar day of the month. The first two fiscal months of a quarter have four weeks each and the last fiscal month has five weeks. Although this conversion results in a difference of only a few days in the accounting period for 1998, the use of fiscal month accounting is a common practice for manufacturing companies and simplifies internal inventory and accounting functions.

Six Month Period Ended July 4, 1998, Compared with Six Month Period Ended June 30, 1997

OVERALL

Net Sales for the period in 1998 of \$12.9 million were \$7.2 million, or 128%, higher than net sales for the same period in 1997. The Company realized a net profit of \$319,569, or \$0.02 per share, in 1998 compared with a loss of \$554,018, or \$0.04 per share, for the same period in 1997. The Company has paid no dividends to date and currently has no plans to do so.

RESULTS OF OPERATIONS

MOTORCYCLE UNIT SHIPMENTS AND NET SALES

	1998	1997	INCREASE	% CHANGE
	----	----	-----	-----
Motorcycle Units	489	210	279	132.9%
Net Sales (in 000's):				
Motorcycles	\$12,632	\$ 5,632	\$ 7,000	124.3%
Motorcycle Parts and Accessories	\$ 252	\$ 23	\$ 229	895.7%
Total Motorcycles and Parts	\$12,884	\$ 5,655	\$ 7,229	127.8%

The Company's business continues to consist predominantly of motorcycles at this point. A small portion of the business is in parts and accessories. The Company introduced its initial product offering in the Clothing and Accessories line in late 1997.

While these segments have not been material to date, the Company anticipates these segments could grow to 10-20% of total sales at some point in the future. These segments represented about 20% of Harley-Davidson's total sales in 1997. While Titan does not expect to duplicate this volume, the mix of parts and accessories for Titan could approach this level.

The continued growth in motorcycle shipments is due to several reasons. The continuing growth in reputation of the Company's motorcycles, and the resulting demand this has created, remains the primary growth driver. This, combined with the continuing growth in the dealership network and the Company's investment in new equipment and staff to meet the growing demand, has led to dramatic growth in shipments.

Company management continues to be gratified by the success that has been realized to date and the overwhelming acceptance of its products in the marketplace since its inception. During the last 3 1/2 years the Company has seen growth in revenues from \$625,000 in 1995 to over \$13,000,000 in 1997 and now the first half of 1998 continues to experience the same dramatic growth, with sales of over \$12,880,000 compared with \$5,650,000 for the same period in 1997 (up 128%). During this same period, the dealer network has grown from 1 location in Phoenix to over 75 dealerships worldwide with over 20 applications from potential new dealers currently being evaluated by the Company. The Company is pleased with the strength of the network that includes Easyrider franchises, Harley Davidson dealers, independent dealers and Titan dealerships. The Company believes this expanding network is one key element in the continued growth of the business.

From the outset, Titan has been dedicated to building the finest production performance motorcycle available while providing the customer the ability to customize their motorcycle to a degree previously available only from low volume, custom builders. It is this focus on quality and providing the very best production motorcycle available that provides the strong reputation the Company has been able to develop so far and the foundation for continuing growth in the future.

The Company was very pleased to be able to report its first profit at the end of the first quarter of 1998 and show continued improvement with its second quarter results. This profitability is due in large part to cost reduction efforts driven by engineering changes and cooperative efforts with key suppliers, as well as to focused efforts on managing SG&A expenses. As these efforts continue and as volume continues to grow, the Company anticipates continued higher levels of profit in the future.

The Company began 1997 at a production rate of 5 - 7 units per week and increased that through the year to reach 18 units per week by year-end. This rate has continued to increase with production exceeding 25 units per week in June 1998. In 1998, the Company is continuing to invest in its engineering capability and infrastructure to allow it to grow production to a level of up to 3000 units per year in its present facility. For 1998, the Company's production target is to exceed 1200 units. The Company plans to continue to develop its existing facilities and human resources, as well as add others as demand warrants, to meet the growing market acceptance of its products. The Company's ability to reach these production levels will depend on several factors. First and foremost will be its ability to continue to create high levels of demand in both the domestic and international markets. Once this is accomplished, the Company must be able to continue to increase efficiencies in its current facilities through engineering advances, adding facilities for both motorcycle and parts production, working with its developing supplier base, and continuing to attract production, engineering and support talent to the Company. There are no assurances that the Company will be able to accomplish all these things simultaneously or in the time frame to match sales demand. The Company could also experience delays in its growth or production as the result of supplier issues, labor shortages, or unforeseen competitive action, as well as from natural causes. These risks, if not offset, could negatively impact the Company's performance and its resulting cash flow.

#### GROSS PROFIT

	1998	1997	INCREASE	% CHANGE
	----	----	-----	-----
Gross profit (In 000's)	\$3,448	\$1,022	\$2,426	137%

In the first 6 months of 1998, gross profit increased \$2,425,705, or 137.3%, as compared to the same period in 1997 due to the increased volume and margins. The gross profit margin was 26.8% as compared with 18.1% in 1997. The 1998 margin has been positively impacted by an average price per unit increase of 4.2% as the mix of bikes changed to reflect higher levels of customization on ordered units and more orders for high-end models. The Company has started to realize a substantial increase in its Gross Profit in 1998 as a result of significant engineering and cost reduction efforts that have been put in place during the past 9 months as well as the increase in customization of its products. The Company has targeted a Gross Profit Margin of over 30% for its total business within the next 3-5 years.

The Company believes this Gross Margin level is possible due to several factors:

- o In the first 6 months of 1998, the gross margin has increased to 26.7% from 18.8% in 1997,
- o There have been additional cost reductions for component parts identified and in process that have not yet been reflected in financial statements,
- o Additional cost reductions of more than 5% of sales have been identified and engineering work begun with anticipated impact in 1999, and
- o Management believes that competitors have been able to achieve these margins on products with lower average selling prices.

#### OPERATING EXPENSES

	1998	1997	INCREASE	% CHANGE
	----	----	-----	-----
Operating Expenses (In 000's)	\$3,016	\$1,587	\$1,429	90.1%

Total operating expense for 1998 increased \$1,429,062, or 90.1%, over the same period of 1997. This increase was due to a number of causes, including, but not limited to: an increase in advertising, trade shows and promotional activities to build the Company's brand name and recognition and drive higher sales levels; an increase in lease expense associated with moving into the new facility; an increase in research & development activity; and an increase in salaries and wages attributed to building both the management and support staff necessary to support a rapidly growing and significantly larger company. While the increases were substantial, both as a percentage of the prior year and in actual dollars, it was in keeping with the Company's plan to continue to invest in infrastructure and growth while becoming profitable in 1998 and the coming years.

#### CONSOLIDATED INCOME TAXES

The Company's effective tax rate was 0.0% in both 1998 and 1997 as it recorded losses during 1997 and prior years and is benefitting from tax loss carry forwards during 1998. The Company currently has a tax loss carry forward of approximately \$1.7 million.

Calendar Year Ended December 31, 1997, Compared with Calendar Year Ended December 31, 1996

OVERALL

Net Sales for 1997 of \$13.1 million were \$8.1 million, or 162%, higher than net sales for 1996. The Company incurred a net loss of \$1.67 million, or \$0.11 per share, in 1997 compared with a loss of \$95,496, or \$0.01 per share, for 1996. The Company has paid no dividends to date and currently has no plans to do so.

RESULTS OF OPERATIONS

MOTORCYCLE UNIT SHIPMENTS AND NET SALES

	1997 -----	1996 -----	INCREASE -----	% CHANGE -----
Motorcycle Units	500	181	319	176.2%
Net Sales (in 000's):				
Motorcycles	\$12,870	\$ 4,939	\$ 7,931	160.6%
Motorcycle Parts and Accessories	\$ 194	\$ 45	\$ 149	331.1%
Total Motorcycles and Parts	\$13,064	\$ 4,984	\$ 8,080	162.1%

As can be seen from the above chart, the Company's business consists almost totally of motorcycles at this point. A small amount of business has been done in parts and accessories to date and the Company introduced its initial product line in Clothing and Accessories in late 1997. While these segments have not been material to date, the Company anticipates these segments could grow to 10 - 20% of total sales at some point in the future.

The increase in motorcycle shipments is due to several reasons. Chief among them is the continuing growth in reputation of the Company's motorcycles and the resulting demand this has created. This, combined with the growth in the dealership network and the Company's investment in new facilities and staff to meet the growing demand, has led to dramatic growth in shipments. Company management has been gratified by the success that has been realized to date and the overwhelming acceptance of its products in the marketplace since its inception. Over the last 3 years, the Company has seen growth in revenues from \$625,000 in 1995 to over \$13,000,000 in 1997. The first quarter of 1998 continued to experience the same dramatic growth, with sales of over \$5,300,000 compared with \$1,900,000 for the same period in 1997 (up 179%). During this same

period, the dealer network of the Company has grown from one location in Phoenix to over 60 dealerships worldwide with over 20 applications from potential new dealers currently being evaluated by the Company. Management of the Company is also pleased with the strength of the network that includes Easyrider franchises, Harley Davidson dealers, independent dealers and Titan dealerships. The Company believes this expanding network is one key element in the continued growth of the business.

From the outset, Titan has been dedicated to building the finest production performance motorcycle available while providing the customer the ability to customize their motorcycle to a degree previously available only from low volume custom builders. The Company is proud to be recognized by various industry periodicals as the leader in its chosen market.<sup>2</sup> It is this focus on quality and providing the very best production motorcycle available that provides the strong reputation the Company has been able to develop so far, and the foundation for growth for the future.

Over the past year, the Company has invested in building an infrastructure that will not only enable it to continue to support this growth, but also to develop new models and features for its customer base. Part of this investment is in the Company's engineering capability, which is focused on developing new products and components as well as continuing to improve on the current products and production processes. Other investments have been made in building the management team of the Company, developing marketing capabilities, and upgrading computer systems to support the continued growth of the business.

Finally, the Company was very pleased to be able to report its first profit at the end of the first quarter of 1998. While small, it occurred one quarter earlier than the Company anticipated and despite poor weather due to El Nino in many areas of the country where sales typically occur during the winter months. This profitability is due in large part to cost reduction efforts driven by engineering changes and cooperative efforts with key suppliers, as well as to focused efforts on managing SG&A expenses. As these efforts

continue and as volume continues to grow, the Company anticipates significantly higher levels of profit in the future.

The Company began 1997 at a production rate of 5 - 7 units per week and increased that through the year to reach 18 units per week by year-end. This was facilitated by a move to a new location in March, 1997 that increased available space from 8,000 to 64,000 square feet and the employment of additional craftsmen to support the higher build level. In 1998, the Company is continuing to invest in its engineering capability and infrastructure to allow it to grow production to a level of up to 3000 units per year in the existing facility. For 1998, the Company's production target is to exceed 1200 units. The Company plans to continue to develop its existing facilities and human resources, as well as add others as demand warrants, to meet the growing demand for its products. The Company plans on continued high levels of growth for at least the next five years.

While projecting sales for the future is an inexact process at best, the Company believes that growth will continue for some of the following reasons:

- o Management believes that the overall growth of the industry is strong and has been out-pacing the basic economy for several years;
- o As the baby boomer generation continues to age, their disposable income continues to increase, and this demographic group represents the largest segment of the Company's market;
- o Since inception, the Company has been capacity constrained and demand for its product has exceeded its ability to produce;
- o The Company's dealership network is still young and continues to expand, opening new geographic markets to the Company. The dealerships also are early in the life cycle of this product, and same store sales are expected to increase as the product's reputation grows in the market place;
- o The international market is still largely untapped. Management of the Company believes that the international market represents approximately 30% of Harley-Davidson's sales; and
- o The Company has new products in the planning stage that should add to its product line and expand its revenue base.

The Company's ability to reach these production levels will depend on several factors. First and foremost will be its ability to continue to create high levels of demand in both the domestic and international markets. Once this is accomplished, the Company must be able to continue to increase efficiencies in its current facilities through engineering advances, adding facilities for both motorcycle and parts production, working with its developing supplier base, and continuing to attract production, engineering and support talent to the Company. There are no assurances the Company will be able to do all these things

simultaneously or in a timely way to match sales demand. The Company could also experience delays in its growth or production as the result of supplier issues, labor shortages, or unforeseen competitive actions, as well as from natural causes. These risks, if not offset, could negatively impact on the Company's performance and it's resulting cash flow.

In 1997, the worldwide market for heavyweight motorcycles (651+cc) exceeded 500,000 units, with approximately 40% of that market in North America. This market grew at 15.7% worldwide and 14.8% domestically.<sup>3</sup> With a market size of over one-half a million units and presently growing at a rate of about 75,000 units per year, the Company currently has a minor position in both the domestic and world-wide markets. This should provide substantial room for growth for the Company without having to compete on price in the marketplace. In fact, the price of its products, combined with the quality and reputation it has achieved, has allowed the Company to effectively create its own market segment. While data is not currently available to the Company by price segment, it believes that it has a significant market share for motorcycles in the over \$25,000 price segment domestically and has positioned itself well for growth in these segments in both the European and Asian markets.

	----	----	-----	-----
Gross Profit (In 000's)	\$2,457	\$1,300	\$1,157	88.9%

In 1997, gross profit increased \$1,156,395, or 88.9%, as compared to 1996 due to the increased volume. The gross profit margin was 18.8% as compared with 26.1% in 1996. The 1997 margin was negatively affected by an average price per unit decrease of 5% as the mix of bikes changed to more standard models and fewer bikes (as a portion of total units sold) containing high-end options. The Company has seen this trend start to reverse itself in 1998, with dealers and customers requesting higher levels of customization on ordered units and more high-end models. The Company also saw its cost of goods sold increase slightly as a result of the change in facilities and costs associated with ramping-up both the new facility and new employees as the production rates grew. These "ramping up" activities consist principally of amassing the various elements necessary to rapidly increase unit production output, including:

- o adding additional expanded floor space for manufacturing, storage and personnel offices,
- o adding additional staff, both hourly and salaried, throughout the organization,

- - - - -  
<sup>3</sup> Data from the Motorcycle Industry Council.

- o adding inventories of raw materials and work in process to support higher volume production, and
- o adding additional production equipment to facilitate higher unit volume output.

The Company anticipates a substantial increase in its Gross Profit in 1998 as a result of significant engineering and cost reduction efforts, as well as the increase in customization of its products. The Company has targeted a Gross Margin of 30% for its total business within the next three to five years. As mentioned at page 11, in the discussion of the results of operations for the first six months of 1998, the Company achieved a gross profit margin of 26.8%. The management of the Company has a reasonable expectation of achieving its goal of 30% gross margin by continuing to pursue the measures discussed at pages 12, and by benefitting from volume purchases of components, by vertical integration by manufacturing more parts in-house, and by redesigning components of its motorcycles.

OPERATING EXPENSES

	1997 ----	1996 ----	INCREASE -----	% CHANGE -----
Operating Expenses (In 000's)	\$4,077	\$1,385	\$2,692	194.4%

Total operating expense for 1997 increased \$2,692,808, or 194.4%, over 1996. This increase was due to a number of causes, including, but not limited to the following principal factors listed in descending order of importance:

- o an increase in salaries and wages attributed to building both the management and support staff necessary to support a rapidly growing and significantly larger Company,
- o an increase in lease expense associated with moving into the new facility,
- o a substantial increase in advertising, trade show and promotional activities to build the Company's brand name and recognition and drive higher sales levels, and
- o an increase in research & development activity.

Each of these factors are the result of direct management action and are part of a continuing trend to expand production, marketing, facilities and product improvements. While the increases were substantial, both as a percentage of the prior year and in actual dollars, it was in keeping with the Company's plan to invest heavily in infrastructure in 1997, to set the stage for profitable growth in 1998 and the coming years.

CONSOLIDATED INCOME TAXES

The Company's effective tax rate was 0.0% in both 1997 and 1996 as it recorded losses for both years. The Company currently has a tax loss carry forward of approximately \$2.0 million.

Calendar Year Ended December 31, 1996, Compared with Calendar Year Ended December 31, 1995

OVERALL

Net Sales for 1996 of \$5.0 million were \$4.4 million, or 697%, higher than net sales for 1995. The Company incurred a net loss of \$95,496, or \$0.01 per share, in 1996 compared with a loss of \$257,513, or \$0.02 per share, for 1995. The Company paid no dividends in calendar year 1995 or 1996.

RESULTS OF OPERATIONS

MOTORCYCLE UNIT SHIPMENTS AND NET SALES

	1996 ----	1995 ----	INCREASE -----	% CHANGE -----
Motorcycle Units	181	24	157	654.2%
Net Sales (in 000's):				
Motorcycles	\$4,939	\$ 625	\$4,314	690.2%
Motorcycle Parts and Accessories	\$ 45	0	\$ 45	NA
Total Motorcycles and Parts	\$4,984	\$ 625	\$4,319	697%

The Company's business consisted almost totally of motorcycles at this point in time. A small amount of business had been done in parts and accessories in 1996.

The increase in motorcycle shipments was due to several reasons. Chief among them is the growth in the quality reputation of the Company's motorcycles and the resulting demand this has created. This combined with the growth in the dealership network, the Company's commitment to marketing efforts, and a full year of production allowed the Company to increase its revenue by almost an order of magnitude over 1995.

The Company began 1996 at a production rate of 2 units per week and increased that to reach 5 - 7 units per week by year-end. In 1997, the Company invested in its engineering capability and infrastructure to allow it to grow production to a level of up to 500 units per year.

The Company's ability to reach these production levels has depended upon several factors. Its ability to create higher levels of demand in both the domestic and international markets was the primary catalyst for this growth.

GROSS PROFIT

	1996	1995	INCREASE	% CHANGE
	----	----	-----	-----
Gross Profit (In 000's)	\$1,300	\$ 17	\$1,283	7547%

In 1996, gross profit increased \$1,282,722 as compared to 1995 due to the increased volume. The gross profit margin was 26.1% as compared with 2.8% in 1995. The 1996 margin was positively affected by a full year of production, and the ability to work with vendors to obtain price breaks as volumes increased.

OPERATING EXPENSES

	1996	1995	INCREASE	% CHANGE
	----	----	-----	-----
Operating Expenses (In 000's)	\$1,385	\$ 266	\$1,119	420.7%

Total operating expense for 1996 increased \$1,118,182, or 420.7%, over 1995. This increase was due to growth in all expense areas except R&D as the Company took advantage of its initial development activity, and made a substantial investment in developing its market as well as the infrastructure of the Company.

CONSOLIDATED INCOME TAXES

The Company's effective tax rate was 0.0% in both 1996 and 1995 as it recorded losses for both years. The Company had a tax loss carry forward of approximately \$350,000 at year-end 1996.

WORKING CAPITAL MANAGEMENT

- - - - -

The Company supplies motorcycles to its dealers in one of two ways. First, the dealer can specify the motorcycle completely with customized paint and selected options with a lead time of 6-8 weeks, sometimes slightly longer during peak season. Alternatively, the dealer can select a completed bike from the Company's available Finished Goods inventory list for immediate shipment or one from the current production schedule that will be available inside the normal lead time window. The Company builds some inventory (up to one month's production) of finished motorcycles during the winter months that is consumed during the spring peak season. During the rest of the year the Company normally maintains a low level of finished goods inventory.

Motorcycles are typically either floored with major financial institutions by the dealer or are paid for in full prior to shipment by the Company. The Company receives payment for floored bikes within 2 weeks of shipment. During winter months the Company may provide free flooring for dealers for up to 90 days depending on model and stock situation to help smooth shipments and keep higher levels of product available for customers.

Parts used to build the bikes are usually available with short lead times, but some parts do require up to ten weeks. Due to high quality standards and reliability of delivery, the Company sets slightly high stocking levels to assure the availability of parts to production. The Company has an ongoing program to continue to upgrade its supplier base and to bring additional parts in house for production, reducing required inventory levels as well as part costs.

The Company has built a strong network of dealers both domestically and internationally. Collectively, there are almost 70 dealers currently in place with more being added every month. There are 4 types of dealers in the Company's network; independent dealers, Easyrider stores and franchises, existing Harley Davidson dealers, and Titan dealerships. In 1997, no dealer represented more than 10% of the Company's revenue and only 2 were over 5%. To date in 1998, 3 dealers with common ownership (Titan of Los Angeles, Titan of Las Vegas, and Paragon Custom dba Titan of Phoenix) represent 25% of the Company's sales. Majority ownership of these dealerships are held by principals in the Company. No other dealer represents more than 5% of sales.

As of May 15, backlog orders stood at approximately \$3.8 million, compared with approximately \$2.4 million at the same time in 1997. The Company is presently completing more than 25 motorcycles each week. At this production volume the entire backlog can be shipped within 3 months.

#### DESCRIPTION OF MARKETS

Surprisingly to some, the typical buyer of the Company's products is a male businessman or professional between 35 - 55 years of age, who has previously owned a production line motorcycle. The average age of a motorcycle owner is increasing, with the customer's median annual earnings exceeding \$50,000.00. It is anticipated that the population of foreign motorcycle enthusiasts may actually increase at a greater rate near the end of the century than the domestic market.

It is generally accepted that demand for the customized V-twin motorcycle will significantly outstrip production through the end of the millennium. At present, the Company occupies a unique niche and is without any significant competitor in its capacity to produce, from the ground up, a customized high-end V-twin motorcycle on a production basis, while preserving the capacity to complete special orders. The Company does not anticipate significant competition in this sector for the next twelve to twenty-four months.

Several companies compete in the market in the below \$20,000 price range, headed by Harley-Davidson who is clearly the dominant manufacturer. There is currently no indication that they intend to move into Titan's market niche, but the possibility of that happening at some time in the future cannot be discounted. There are other builders that are currently smaller than the Company in the below \$20,000 price range that are starting to produce some motorcycles at higher prices. None of these builders has any significant position in the Titan's niche at this time.

Over the next three years, the Company projects it can increase its market share of V-twin motorcycles, including both production line products and custom models, from its projected 0.5% market share in 1997 to 2% by the year 2000. The Company estimates that it has a greater than 50% market share for V-twin motorcycles over \$25,000 and anticipates that this market sector will also continue to increase.

#### ENVIRONMENTAL CONTROLS

- - - - -

The Company's products meet all federal and state emission requirements and have been approved by the EPA and DOT.

The Company's manufacturing facilities also meet all federal, state and local environmental requirements. The primary area of potential discharge is the Company's paint facility, which meets all required standards. Expansion of this area would require additional capital requirements, but it is not anticipated that this would have any significant material effect on earnings or capital expenditures at this time.

#### OTHER MATTERS

#### IMPACT OF YEAR 2000

- - - - -

The "Year 2000 Problem" exists because many existing computer programs use only the last two digits to refer to a year. Therefore, these programs do not properly recognize a year that begins with "20" instead of "19". If not corrected, many computer applications could fail or create erroneous results.

The Company has completed an analysis of its internal systems and the potential for issues associated with the year 2000 problem. All Company information systems already are or will be compliant before the end of 1998. The Company began in 1997 to bring on-line new systems to support both operations and financial reporting requirements as part of building the infrastructure to support the Company's growth. As part of the conversion, the Company received assurances from its software suppliers that all systems are year 2000 compliant. To this point in time, the Company has installed modules that address inventory management, purchasing components, shop floor control and production scheduling, and receiving. The remaining modules that include order entry, shipping and invoicing, and accounting are in the conversion process now and are expected to be operational before year end 1998.

Relative to Non-IT systems, the Company is currently investigating this area for potential problems. As the Company does not have a high degree of sophisticated equipment in its production process, the Company does not anticipate any major issues or cost to remediate. Again, this analysis should be complete before year-end 1998, along with a complete plan to address any identified issues.

With regard to third party year 2000 issues, the Company has begun discussions with its supplier base (and is currently surveying them), to ascertain the potential for a negative impact on the Company's operations and what steps are being taken to ensure continuity of supply of parts and service. While the Company believes its plans are adequate to deal with the year 2000 issues internally, and will be compliant on a timely basis, there is no guarantee that all suppliers and other parties that are essential to the Company's operations will do so.

The failure of any supplier to adequately address this issue in a timely manner will result in the Company looking to other suppliers to fill the need. While the Company is single sourced for many of its components, there are alternative suppliers for all required parts. The potential exists for a material negative effect on Company operations if a key supplier does not adequately address the issue in a timely manner. The Company will be working with all key suppliers throughout this time period to ensure continuity of supply.

The Company has also evaluated the risks associated with this problem and its customers through discussions with key dealers. As the ordering process from dealers is a manual one, and stocks of motorcycles on dealer's floors is a relatively low number (typically between 5 and 25 units), the Company and the dealers involved in these discussions believe that the year 2000 problem will have no material impact to either the dealers or the Company.

The Company's cost to become year 2000 compliant is minimal and not material to this point, nor expected to be in the future. As the Company had already planned its systems conversions to facilitate its growth, there were no incremental costs associated with insuring those systems were year 2000 compliant. As a result, costs of the effort are mainly focused on following up with suppliers to determine their level of compliance. These costs are imbedded in other activities and are not expected to be material (less than \$50,000.00/year in both 1998 and 1999).

The most reasonable likely worst case Year 2000 scenario would be for a key supplier to not become compliant. If no steps were taken to address this issue, it could result in the Company's operations being shut down until the problem was resolved. As discussed above, the Company is in the process of analyzing the readiness of all its suppliers to assure continuity of supply, so the probability of such a scenario is not yet known.

As the specifics of potential problems are not yet known, a detailed contingency plan has not yet been developed. Once more information is known from the survey of vendors, a specific contingency plan for likely scenarios will be developed. The Company would anticipate this being completed by the end of the first quarter of 1999.

After identifying the likelihood of such an event, the Company would take some or all of the following steps:

- o Work with the vendor to put in place a manual back-up system to assure continued supply until the vendor becomes compliant,
- o Bring on line an alternate vendor with the capacity to meet 100% of the Company's supply requirements, or
- o Put in place additional raw material inventory at either the vendor's location or in the Company's warehouse until continuity of supply is assured.

## LIQUIDITY AND CAPITAL RESOURCES

The Company used \$5.56 million of cash in operating activities in 1997 compared with \$1.87 million in 1996. Net losses adjusted for depreciation and amortization consumed \$1.58 million. Inventories increased \$5.0 million in 1997 over the \$1.5 million increase in 1996, as the Company continued to ramp production as well as stockpile some finished goods in anticipation of a strong spring season. Accounts receivable increased by only \$240,000 as the Company entered into a manufacturer's flooring agreement with Transamerica, whereby most dealers finance their motorcycle inventory directly with Transamerica and the Company receives funds in a more timely manner. This effectively reduces the Company's outstanding receivables substantially, and resulted in only a 32% increase in receivable dollars on a sales increase of 162%. The contractual agreement with Transamerica is at no cost to the Company, but provides for a repurchase obligation on the part of the Company should a Titan dealership fail to meet its financial obligation and Transamerica seizes motorcycles in new condition upon a dealer's default. When Titan invoices a dealer using the Transamerica program, a copy of the invoice is sent to Transamerica by Titan, and Transamerica pays the Company in full within 7 to 10 calendar days. Capital expenditures totaled \$621,000 in 1997 compared with \$51,000 in 1996.

These expenditures were predominantly associated with bringing on line the new manufacturing facility and the purchase of a large truck for transporting and displaying product at various trade and dealer shows.

Cash was provided through the issuance and sale of stock for \$4 million in 1997 as compared with \$2.5 million in 1996. Additionally, the Company had net borrowings of \$1.4 million in 1997 as compared with \$256,000 in 1996. A more detailed description of cash flows can be found in the attached financial statements.

## INFLATION

- - - - -

Inflation rates have been trending upward recently after several years of low to moderate increases. Inflation will result in the escalation of costs as well as increasing operating expenses for the Company. The Company anticipates the ability to offset most of these increases through its cost reduction program, provided that inflation rates do not accelerate dramatically.

## FOREIGN RISK FACTORS

- - - - -

The primary risk to foreign sales is the state of the economy in the Company's overseas markets. This evidences itself both in the willingness of the

marketplace to purchase the product and in the exchange rates for transactions which ultimately impacts the final price of the product of the Company in the dealer's country. Other risks include the relative strength of individual dealerships in their respective countries, marketing expertise of the dealer network, transportation delays associated with shipping products from Phoenix, and individual country regulatory requirements. The Company believes it has taken the necessary steps and signed up strong dealers in the countries where it is currently represented to mitigate the above risks, except for those related to country economics.

PART I, ITEM 3. DESCRIPTION OF PROPERTY.

In March 1997, the Company moved to its present manufacturing and distribution facilities to 2222 West Peoria Avenue, Phoenix, Arizona 85029. On August 7, 1997, the Company entered into a second lease with the same landlord for an adjacent parcel of property. Under the combined leases, the Company presently occupies a leased structure having approximately 64,000 square feet of combined administrative, manufacturing, assembly and distribution space. Approximately 10,000 square feet are devoted to offices with the remaining area dedicated to production and warehouse. The Company has just entered the second year of a current five year lease on this premises at an aggregate rate for the two leases of \$29,295.00 per month. The form of the leases and the addenda to the leases are included as Exhibits 6.1 and 6.2 of this Registration Statement. The Company has maintained its former leased facility at 2002 East Indian School Road, Phoenix, Arizona for certain limited purposes for the full lease term ending July 1, 1998. The Company has extended the use of such facilities on a month to month basis at the end of the term at the current monthly cost of \$3,978.

It is reasonably anticipated that the present physical facilities should be adequate for the Company's anticipated manufacturing and distribution needs into 1999.

PART I, ITEM 4. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT.

As of the June 1, 1998, the Company had 16,437,333 shares of common stock outstanding. The chart below sets forth the ownership, or claimed ownership, of certain individuals and entities. This chart discloses those persons known by the Board of Directors to have, or to claim to have, beneficial ownership of more than 5% of the outstanding shares of the common stock of the Company as of June 1, 1998; of all directors and executive officers of the Company; and of the directors and officers of the Company as a group.

PART I, ITEM 6. EXECUTIVE COMPENSATION.

The table set forth below contains information about the remuneration received and accrued during the last three fiscal years from the Company and its subsidiaries by the CEO of the Company. None of the employees of the Company have received salary and bonuses of \$100,000 or more in any calendar year.

Name and Principal Position	Year	Salary (\$)	Bonus (\$)	Other Annual Compensation (\$)	Securities Underlying Options or SARs (#)
Frank Keery	1997	61,153.70	1,154	6,9426	0
Chairman/CEO	1996	59,999.96	0		150,000
	1995	0	0		0

In December 1996, the Board of Directors of the Company adopted the Titan Motorcycle Co. of America Stock Option and Incentive Plan (the "Plan"). Under the Plan, Incentive Stock Options ("ISOs"), Non-qualified Stock Options, Stock Appreciation Rights ("SARs"), Restricted Stock, Dividend Equivalents and Performance Shares may be awarded to key employees of Titan Motorcycle Co. of America and its subsidiaries.

A committee consisting of at least two Board members is authorized to administer the Plan and is authorized to select from among eligible employees those persons who will receive awards, to select the appropriate form of awards and to determine the terms and conditions of such awards. After taking into consideration the

6 Of the amount reflected, \$5,824 represents an automotive allowance for Frank Keery.

March 1997 two-for-one forward split of the stock of the Company, the aggregate number of shares of stock subject to awards under the Plan may not exceed 2,000,000.

The committee may make awards of ISOs, Non-qualified Stock Options, SARs, Restricted Stock, Dividend Equivalents and Performance Shares, or any combination of the foregoing, to officers and other key employees of the Company and its subsidiaries. For purposes of the Plan, the "key employees" are those employees who, in the opinion of the Committee, are mainly responsible for the continued growth, development and financial success of the Company. The committee is not required to make awards to every individual who is an officer or key employee, but it may not make any award to any individual who is not an officer or key employee.

An ISO is a stock option that satisfies certain technical requirements specified in Section 422 of the Internal Revenue Code (the "Code"). Under the Code, ISOs may only be granted to employees. In order for an option to qualify as an ISO, the price specified in the option must equal the fair market value of the stock at the date of the grant, and the option must lapse no later than 10 years from the date of the grant. As a general rule, the stock subject to ISOs which are first exercisable by an employee in any calendar year may not have a value of more than \$100,000 as of the date of grant. Certain other requirements must also be met.

A Non-qualified Stock Option is any stock option other than an ISO. These options are referred to as "non-qualified" because they do not meet the requirements of, and are not eligible for the favorable tax treatment provided by Section 422 of the Code. Subject to applicable federal and state securities laws, non-qualified options can be subject to such terms and conditions as the committee determines in its discretion. Thus, for example, a Non-qualified Stock Option could be granted which has an exercise price which is less than the stock's fair market value on the date of grant.

A Stock Appreciation Right ("SAR") is the right granted to an employee to receive the appreciation in the value of a share of Company stock over a certain period of time. Under the Plan, the Company may pay that amount in cash or in Company stock or in a combination of both. SARs are often issued in conjunction with a grant of stock options to give the employee the cash necessary to exercise the option and/or pay the tax attributable to the exercise of the option (in the case of a Non-qualified Stock Option). Although SARs can be exercised independently of an option, in such cases, the underlying option lapses to the extent the SARs are exercised.

The Plan also authorizes the committee to award Restricted Stock to employees. Under the Restricted Stock feature of the Plan, the employee is granted a specified number of shares of the Company's stock. However, his ownership with respect to such stock is subject to certain restrictions, and if the employee violates any of the restrictions during the period specified by the Committee, he forfeits his stock. The committee may, in its discretion, impose any restrictions on an employee's Restricted Stock Award. It may not, however, require the employee to make any payment for the Restricted Stock.

The Plan authorizes the committee to grant dividend equivalents in connection with options. Dividend equivalents are rights to receive additional shares of Company stock at the time of exercise of the option to which such dividend equivalents apply. Dividend equivalents are always issued in connection with an option, however, they can be issued at the time the option is granted or after the option is granted.

Under the Plan, the committee may grant performance share units to an employee which are to be credited to a performance share account maintained for the employee. Each performance share unit is deemed to be the equivalent of one share of Company stock. An award of performance shares does not entitle an employee to any ownership, dividend, voting, or other rights of a shareholder until distribution is made in the form of shares of stock. No employee may receive as performance shares units more than 30 percent of the aggregate number of shares that can be awarded under the Plan.

As of June 1, 1998, the Company has granted ISOs and Non-qualified Stock Options for an aggregate of 865,000 shares of stock. No grants have been made of any of the other categories of awards available under the Plan.

Stock options awarded in fiscal year 1997 under the Plan of the Company are as follows:

Name	Number of Securities Underlying Options/SARs Granted (#)	Date Awarded	% of Total Options/SARs Granted to Employees in Fiscal Year	Exercise or Base Price (\$/Sh)	Expiration Date
Gary Smith	60,000	1/8/97	100%	\$3.00	1/8/07

PART I, ITEM 7. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

Prior to the formation of Titan Motorcycle Co. of America, Patrick Keery and Frank Keery had been conducting the business of after-market customizations of Harley Davidson motorcycles in the Phoenix area under the name of Paragon Custom Cycles. The Phoenix dealership for the Company has retained this name for reasons of established name recognition in the Maricopa County market. This distributorship is owned by the President and the CEO of the Company, and sells the products of the Company under the standard dealership contract of the Company without any special concessions or contract provisions.

In early 1998, the CEO and the President of the Company joined with a third-party investor to purchase the Los Angeles, California and Las Vegas, Nevada distributorships of the Company. Bryant Cragun, the third-party investor, is the principal of an investment banking firm that has assisted the Company in capital raising functions. These three individuals have formed a limited liability company known as BPF, LLC. The Los Angeles and Las Vegas distributorships had been in need of significant capital infusions, at a time when the Company was unable to invest in any of its distributorships. To date, BPF, LLC has provided \$207,000 to the Las Vegas distributorship and \$255,000 to the Los Angeles distributorships. These two distributorships are continuing to sell the products of the Company under the standard dealership contract of the Company without any special concessions or contract provisions.

PART I, ITEM 8. DESCRIPTION OF REGISTRANT'S SECURITIES TO BE REGISTERED.

The Company has authorized Ninety Million common shares (90,000,000) having a par value of \$0.001 per share. The Company presently has only one class of common shares.

The Company has also authorized Ten Million (10,000,000) shares of preferred stock having a par value of \$0.001 per share. The Articles of Incorporation of Titan do not specify rights of the preferred stock, but authorize the Board of Directors of the Company to establish such rights at the time that preferred stock is issued. As of the date of this Registration Statement, no preferred shares are issued or outstanding and no specific rights have been established for such stock.

At June 1, 1998, there were 16,437,333 shares of Common Stock issued and outstanding, and held by more than 500 shareholders. Holders of

Common Stock are entitled to one vote per share for the election of directors and on all matters submitted to a vote of shareholders. There are no cumulative voting rights for the election of directors. Holders of Common Stock are entitled to receive dividends as and when declared by the Board of Directors out of funds legally available therefore. Holders of Common Stock are not entitled to preemptive rights. The Common Stock to be registered is not convertible to any other debt or security installment. In the event of the liquidation, dissolution or winding up of the Company, the holder of each share of Common Stock is entitled to share equally in any balance of the Company's assets available for distribution to shareholders. Outstanding shares of Common Stock are not subject to any further call or assessment.

PART II, ITEM 2. LEGAL PROCEEDINGS.

The Company presently is involved as a defendant in a civil action filed against it in the Superior Court (court of general jurisdiction) in and for Maricopa County, Arizona, Civil No. CV98-03681, arising out of a dispute over payment for and the adequacy of services performed by the plaintiff in completing a paint room for the Company. The amount alleged owing is the principal sum of \$52,898.59. The Company disputes the claims and has filed a counterclaim. In all events, it is not believed the outcome of this litigation will have any material affect on the Company's business. The Company is not aware of any other claims or litigation.

PART II, ITEM 3. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE.

The Company has no disagreement with its accountants on the accounting and financial disclosures contained in this Registration Statement or as an exhibit hereto.

PART II, ITEM 4. RECENT SALES OF UNREGISTERED SECURITIES.

Set forth below is a table summarizing all transactions of the sale of securities of the Company for the past three years, which securities were not registered under the Securities Act. The table does not include the employee options granted pursuant to the 1996 Incentive Stock Option Plan of the Company discussed in Item 6 of Part I of this Registration Statement.

Transactions 1, 4 and 7 are deemed exempt from registration pursuant to the provisions of Regulation D adopted by the Securities and Exchange Commission. Transaction 7 is a transaction under Rule 505 of Regulation D and is documented by a signed investment intent letter of the purchaser. Such purchaser is an accredited investor. The certificates representing each of the issued shares bear an appropriate restrictive legend, and the transfer agent of the Company has been given stop transfer instructions with regard to shares issued under any Regulation D exemption. Each of the purchasers in the Regulation D transactions had a pre-existing relationship with the Company. The recipients of the stock in transaction 1 were the shareholders of Paragon Custom Cycles, and possessed more information regarding the business to be pursued by the surviving corporation in the merger transaction than any other person. Transaction

1 resulted in the issuance of shares of common stock under Rule 505 of Regulation D to Frank, Patrick and Barbara Keery, each of whom qualified as an accredited investor. Such individuals have served as officers and directors of the Company since the time of the merger with Mojave, and were the sole shareholders of Paragon Custom Cycles prior to the merger. Transaction 4 was merely a private placement to the existing shareholders of the Company pursuant to a two-for-one forward split of the stock of the Company. In addition to possible exemption from registration under Regulation D as to some or all shareholders, the issuance of the shares pursuant to the split of the stock of the Company is exempt from registration under Release No. 33-929, July 29, 1936, 17 CFR 231.929.

The remaining transactions are deemed exempt from registration pursuant to the provisions of Regulation S adopted by the Securities and Exchange Commission. Each of these transactions is documented by signed subscription agreements. The Company reasonably believes, and each of the purchasers specifically warranted and represented to the Company, that (a) the purchaser was not a U.S. person as that term is defined under Regulation S; (b) at the time the buy order for the securities was originated, the purchaser was outside the United States and was outside of the United States as of the date of the execution and delivery of the purchaser's subscription agreement; (c) the purchaser was purchasing the securities for its own account and not on behalf of any U.S. person; (d) the sale had not been pre-arranged with a purchaser in the United States; (e) all offers and resales of the securities would only be made in compliance with the provisions of Regulation S; and (f) the sales transaction was made in compliance with all of the laws of the country of domicile of the purchaser, and of any political subdivision thereof, and the customary practices and documentation of such jurisdictions. The certificates representing the shares issued in such transactions bear an appropriate restrictive legend, and the transfer agent of the Company has been given stop transfer instructions with regard to shares issued under any Regulation S exemption.

The Company has monitored the flow of Regulation S shares issued by the Company and is not aware of any shares which have been sold back into the United States, or to U. S. persons (as defined in Rule 902(o) of Regulation S), within one year of the later of (a) the date of sale by the Company of the Regulation S shares, or (b) the date of the resale by a foreign underwriter of the last of any shares of a tranche of securities which were not held by the underwriter as its private investment. All individuals or entities who did not purchase their shares directly from the Company and who request the removal of the restrictive legend from shares issued under Regulation S are required to sign a representation letter certifying the accuracy of the statements set forth in subparagraphs (a) and (b) of this paragraph.

No commission or finders fees were paid on any of the referenced transactions.

PART II, ITEM 5. INDEMNIFICATION OF DIRECTORS AND OFFICERS.

The Company has included in its Restated Articles of Incorporation provisions to indemnify its directors and officers from personal liability to the Company or any of its shareholders for damages for the breach of a fiduciary duty. The Restated Articles also provide for rights of indemnification as allowed under the laws of the state of Nevada. Additionally, the Bylaws of the corporation may be amended to allow for additional rights of indemnification by the corporation. The directors and officers enjoy rights of indemnification for defending criminal or civil actions, suits, or proceedings involving alleged acts or omissions by the director or officer while acting in said party's capacity on behalf of the corporation. The corporation does not indemnify a director or officer for any acts or omissions involving intentional misconduct, fraud, or a knowing violation of law or the payment of distributions in violation of Nevada Revised Statutes Section 78.300.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers and controlling persons of the Company pursuant to such indemnification provisions, the Company has been advised that, in the opinion of the Securities and Exchange Commission, such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable.

We have audited the accompanying consolidated balance sheet of Titan Motorcycle Co. of America as of December 31, 1997 and the related consolidated statements of operations, stockholders' equity, and cash flows for the years ended December 31, 1997 and 1996. TITAN MOTORCYCLE CO. OF AMERICA  
Notes to the Consolidated Financial Statements  
December 31, 1997 and 1996

NOTE 1 - ORGANIZATION AND DESCRIPTION OF BUSINESS

The financial statements presented are those of Titan Motorcycle Co. of America (Company). The Company was incorporated in the State of Nevada on January 10, 1995 to carry on any lawful activity under the laws of Nevada. On June 11, 1996, Mojave Financial Services, Inc. changed its name to Titan Motorcycle Co. of America in conjunction with the merger with Titan Motorcycle Co. of America. Prior to the acquisition of Titan Motorcycle Co. of America, the Company had been seeking to merge with an existing, operating company.

Titan Motorcycle Co. of America (premerger) (Titan) was incorporated in the State of Arizona on December 12, 1994. The Company manufactures custom design motorcycles and sells them to authorized dealers or to the general public.

On June 11, 1996, Mojave Financial Services, Inc. and Titan Motorcycle Co. of America completed an Agreement and Plan of Reorganization whereby the Company issued 11,000,000 shares of its common stock in exchange for all of the outstanding common stock of Titan. Immediately prior to the Agreement and Plan of Reorganization, the Company had 44,000 shares of common stock issued and outstanding.

The acquisition was accounted for as a recapitalization of Titan because the shareholders of Titan controlled the Company after the acquisition. Therefore, Titan is treated as the acquiring entity. There was no adjustment to the carrying value of the assets or liabilities of Titan in the exchange. The Company is the acquiring entity for legal purposes and Titan is the surviving entity for accounting purposes. On June 11, 1996, the shareholders of the Company authorized a reverse stock split of 1-for-10. All references to shares of common stock have been retroactively restated. On March 17, 1997, the shareholders of the Company authorized a forward stock split of 2-for-1. All references to shares of common stock have been retroactively restated.

TITAN MOTORCYCLE CO. OF AMERICA  
Notes to the Consolidated Financial Statements

July 4, 1998 and June 30, 1997

NOTE 1 - ORGANIZATION AND DESCRIPTION OF BUSINESS

The financial statements presented are those of Titan Motorcycle Co. of America (Company). The Company was incorporated in the State of Nevada on January 10, 1995 to carry on any lawful activity under the laws of Nevada. On June 11, 1996, Mojave Financial Services, Inc. changed its name to Titan Motorcycle Co. of America in conjunction with the merger with Titan Motorcycle Co. of America. Prior to the acquisition of Titan Motorcycle Co. of America, the Company had been seeking to merge with an existing, operating company.

Titan Motorcycle Co. of America (premerger) (Titan) was incorporated in the State of Arizona on December 12, 1994. The Company manufactures custom design motorcycles and sells them to authorized dealers or to the general public.

On June 11, 1996, Mojave Financial Services, Inc. and Titan Motorcycle Co. of America completed an Agreement and Plan of Reorganization whereby the Company issued 11,000,000 shares of its common stock in exchange for all of the outstanding common stock of Titan. Immediately prior to the Agreement and Plan of Reorganization, the Company had 44,000 shares of common stock issued and outstanding.

The acquisition was accounted for as a recapitalization of Titan because the shareholders of Titan controlled the Company after the acquisition. Therefore, Titan is treated as the acquiring entity. There was no adjustment to the carrying value of the assets or liabilities of Titan in the exchange. The Company is the acquiring entity for legal purposes and Titan is the surviving entity for accounting purposes. On June 11, 1996, the shareholders of the Company authorized a reverse stock split of 1-for-10. All references to shares of common stock have been retroactively restated. STANDARD COMMERCIAL-INDUSTRIAL TRIPLE NET LEASE

1. PARTIES. This Lease, dated December 16, 1996, for reference purposes only, is made by and between Holualoa Peoria Avenue Industrial, LLC, an Arizona limited partnership ("Lessor"), and Titan Motorcycle Co. of America, Inc., a Nevada corporation ("Lessee").

2. PREMISES. Lessor hereby leases to Lessee and Lessee leases from Lessor for the term, at the rental, and upon all the conditions set forth herein, the premises demised by this Lease, located at 2222 W. Peoria Avenue, Suites B, C, D, E (the "Premises"), together with a nonexclusive right to use the parking and common areas (collectively, the "Common Areas"), surrounding the Premises and within the project commonly known as Peoria Avenue Industrial (the "Project"). The location of the Premises and the parameters of the Common Areas and the Project are shown on Exhibit "A" attached hereto. All dimensions and areas quoted herein or in any exhibit attached hereto are approximate and are based on gross rentable area, rather than solely on areas designed for the exclusive use and occupancy of tenants.

3. TERM.

3.1. TERM. The term of this Lease shall commence on the business day following full execution of this Lease ("Commencement Date") and end on March 31, 2002 (expiration Date"), unless sooner terminated pursuant to any provision hereof ("Term"). Lessor shall deliver possession of the Premises to Lessee on the Commencement Date.

3.2. INTENTIONALLY DELETED.

4. RENT.

4.1. MONTHLY BASE RENT. Lessee shall pay to Lessor a monthly base rental as set forth in the Addendum hereto. The monthly base rental due hereunder shall be payable to Lessor by the first day of each month during the Term at the address stated herein or to such other persons or at such other places as Lessor may designate in writing and shall be paid in lawful money of the United States of America. The Lessee further agrees to pay Lessor, in addition to the rent as provided herein, an privilege, sales, excise, rental and other taxes (except income taxes) imposed now or hereinafter imposed by any governmental authority upon the rentals and all other amounts herein provided to be paid by the Lessee. Said payment shall be in addition to and accompanying each monthly rental payment made by Lessee to Lessor.

The base rental set forth in this Section 4.1 is a negotiated figure and shall govern whether or not the actual gross rentable square footage of the Premises is the same as set forth in Paragraph 12 hereof. Lessee shall have no right to withhold, deduct or offset any amount from the base monthly rental or any other sum due hereunder even if the actual gross rentable square footage of the Premises is less than that set forth in Paragraph 12. Rent for any period during the Term which is for less than one month shall be a pro rata portion of the monthly instrument.

4.2. INTENTIONALLY DELETED.

5. SECURITY DEPOSIT. Lessee shall deposit with Lessor upon execution hereof Twenty-One Thousand Seven Hundred Seventy-Five and no/100 Dollars (\$21,775.00)

as security for Lessee's faithful performance of Lessee's obligations hereunder. If Lessee fails to pay rent or other charges due hereunder, or otherwise defaults with respect to any provision of the Lease, Lessor may use, apply, or retain all or any portion of said deposit for the payment of any rent or other charge in default or for the payment of any other sum for which Lessor may become obligated by reason of Lessee's default, or to compensate Lessor for any loss or damage which Lessor may suffer thereby. If Lessor so uses or applies all or any portion of said deposit, Lessee shall within ten (10) days after written demand therefor deposit cash with Lessor in an amount sufficient to restore said deposit to the full amount hereinabove stated, and Lessee's failure to do so shall be a material breach of this Lease. Lessor shall not be required to keep said deposit separate from its general accounts. If Lessee performs all of Lessee's obligations hereunder, said deposit, or so much thereof as has not theretofore been applied by Lessor, shall be returned, without payment of interest or other increment for its use, to Lessee (or, at Lessor's option, to the last assignee, if any, of Lessee's interest hereunder) at the expiration of the Term and after Lessee has vacated the Premises. Any mortgagee of Lessor, purchaser of the Project, or beneficiary of a deed of trust shall be relieved and released from any obligation to return said deposit in the event such mortgagee, beneficiary of deed of trust or purchaser becomes the owner of the Project by reason of foreclosure or trustee's sale (including deed in lieu thereof) or proceeding in lieu of foreclosure or trustee's sale unless said deposit shall have been actually delivered to such mortgagee, beneficiary of deed of trust or purchaser. Such release, however, shall not relieve the person or entity who owned the Project immediately prior to acquisition of title by such mortgagee, beneficiary of deed of trust or purchaser of any obligation he or it may have to return said deposit.

## 6. USE.

### 6.1. PERMITTED USES.

(a) The Premises are to be used only for the design, assembly, sales, and distribution of new motorcycles, motorcycle parts and motorcycle accessories; in addition, to operation will include welding, assembly, painting, machinery, testing, polishing and other allied activities, and related general office and administration ("Permitted Use") and for no other business or purpose whatsoever without the prior written consent of Lessor. 6.2. CONDITION OF PREMISES. Lessee hereby accepts the Premises in their condition existing as of the date of the execution hereof or in the condition described on the attached Exhibit "B," whichever is applicable, subject to all applicable laws, ordinances and regulations governing and regulating the use of the Premises, and subject to all matters disclosed thereby. ### 6.3. HAZARDOUS MATERIALS.

(a) As used herein, the term "Hazardous Material" shall mean any substance or material which has been determined by any state, federal or local governmental authority to be capable of posing a risk of injury to health, safety or property, including all of those materials and substances designated as hazardous or toxic by the city in which the Premises are located, the U.S. Environmental Protection Agency, the Consumer Product Safety Commission, the U.S. Food and Drug Administration, the Arizona Department of Environmental Quality, the Pima County Department of Environmental Quality, or any other governmental agency now or hereafter authorized to regulate materials and substances in the environment.

(b) Lessee agrees not to introduce any Hazardous Material in, on or adjacent to the Premises or in, on or adjacent to the Project without (i) obtaining Lessor's prior written approval, (ii) providing Lessor with thirty (30) days prior written notice of the exact amount, nature, and manner of intended use of such Hazardous Materials, and (iii) complying with all applicable federal, state and local laws, rules, regulations, policies and authorities relating to the storage, use, disposal and clean-up of Hazardous Materials, including, but not limited to, the obtaining of all proper permits.

(c) Lessee shall immediately notify Lessor of any inquiry, test, investigation, or enforcement proceeding by, against or directed at Lessee or the Premises concerning a Hazardous Material. Lessee acknowledges that Lessor, as the owner of the Premises, shall have the right, at its election, in its own name to negotiate, defend, approve, and appeal, at Lessee's expense, any action taken or order issued by any applicable governmental authority with regard to a Hazardous Material released onto the Premises or the Project by Lessee.

(d) If Lessee's storage, use or disposal of any Hazardous Material in, on or adjacent to the Premises or the Project results in any contamination of the Premises, the Project, the soil, surface or groundwater thereunder or the air above and around the Premises and the Project (i) requiring re-mediation under federal, state or local statutes, ordinances, regulations or policies, or (ii) at levels, in excess of the minimum levels, which are unacceptable to Lessor, in Lessor's reasonable discretion, Lessee agrees to clean-up the contamination immediately, at Lessee's sole cost and expense.

Lessee further agrees to indemnify, defend and hold Lessor harmless from and against any claims, suits, causes of action, costs, damages, loss and fees, including attorneys' fees and costs, arising out of or in connection with (i) any clean-up work, inquiry or enforcement proceeding relating to Hazardous Materials currently or hereafter used, stored or disposed of by Lessee or its agents, employees, contractors or invitees on or about the Premises or the Project, and (ii) the use, storage, disposal or release by Lessee or its agents, employees, contractors or invitees of any Hazardous Materials on or about the Premises or the Project.

Lessee agrees to provide access and reasonable assistance for such inspections. Such inspections may include, but are not limited to, entering the Premises with machinery for the purpose of obtaining laboratory samples. Lessor shall not be limited in the number of such inspections during the Term. If, during such inspections, it is found that Lessee's use of Hazardous Materials constitutes a violation of this Lease, Lessee shall reimburse Lessor for the cost of such inspections within ten (10) days of receipt of a written statement therefor. If such consultants determine that the Premises are contaminated with Hazardous Material as a result of a release(s) by Lessee or are in violation of any applicable environmental law, and such violation did not exist prior to the Commencement Date, Lessee shall, in a timely manner, and at its expense, remove such Hazardous Materials or otherwise comply with the recommendations of such consultants to the reasonable satisfaction of Lessor and any applicable governmental agencies. If Lessee fails to do so, Lessor, at its sole discretion, may, in addition to all other remedies available to Lessor under this Lease and at law and in equity cause the violation and/or contamination to be remedied at Lessee's sole cost and expense. The right granted to Lessor herein to inspect the Premises shall not create a duty on Lessor's part to inspect the Premises, or liability of Lessor for Lessee's use, storage or disposal of Hazardous Materials, it being understood that Lessee shall be solely responsible for all liability in connection therewith.

(f) Lessee shall surrender the Premises to Lessor upon the expiration or earlier termination of this lease of Hazardous Materials (other than those, if any, existing as of the Commencement date) and in a condition which complies with all governmental statutes, ordinances, regulations, and policies, recommendations of consultants hired by Lessor, and such other reasonable requirements as may be imposed by Lessor.

In the event that this Lease is not terminated by reason of such condemnation, Lessor shall to the extent of severance damages actually received by Lessor in connection with such condemnation, repair any damage to the Premises caused by such condemnation except to the extent that Lessee has been reimbursed therefor by the condemning authority. ADDENDUM TO STANDARD COMMERCIAL-INDUSTRIAL  
TRIPLE NET LEASE

This Addendum to Standard Commercial-Industrial Triple Net Lease ("Addendum") is attached to and incorporated into that certain Standard Commercial-Industrial Triple Net Lease, dated as of December 16, 1996, between Holualoa Peoria Avenue Industrial, LLC, an Arizona limited liability company ("Lessor"), and Titan Motorcycle Co. of America, a Nevada corporation ("Lessee"), (the "Lease"). In the event of any inconsistency between the terms of the Lease and this Addendum, the terms of this Addendum shall control. As hereinafter used, the term "Lease" means the Lease as amended by this Addendum.

36. Intentionally Deleted.  
-----

37. HVAC and Mechanical Equipment. Notwithstanding the terms of Paragraph 7 of the Lease to the contrary, during the first nine (9) months of the Term, Lessor, shall, at its expense, maintain, service, replace and keep in good repair the heating, ventilating and air conditioning equipment and all mechanical equipment serving the Premises; provided, however, the foregoing obligation of Lessor shall in no event include any of the Leasehold Improvements described on Exhibit "B" to the Lease.

38. Monthly Base Rent. The monthly base rental shall commence April 1, 1997 (the "Rental Start Date"). Monthly base rental for the twenty (20) month period commencing on the Rental Start Date shall be Fifteen Thousand Five Hundred Twenty and no/100 Dollars (\$15,520.00) triple net; monthly base rental for the second twenty (20) month period after the Rental Start Date shall be Eighteen Thousand Two Hundred Thirteen and no/100 Dollars (\$18,213.00) triple net; and monthly base rental for the third twenty (20) month period after the Rental Start Date shall be Twenty Thousand Nine Hundred Six and no/100 Dollars (\$20,906.00) triple net. Lessee shall have the right to occupy the Premises from the Commencement Date until the Rental Start Date rent free.

39. Extension Option.  
-----

39.1 Lessor hereby grants to Lessee one (1) option (the "Extension Option") to extend the Term of the Lease for an additional period of five (5) years (the "Option Terms), on the same terms, covenants and conditions as provided for in this Lease during the initial Term, except: (a) the monthly base rent payable during the Option Term shall be the "fair market rental rate" for the Premises as defined and determined in accordance with the Fair Market Rental Rate Rider attached to this Lease as Exhibit "C" provided, however, in no event shall the monthly base rent payable during the Option Term be less than the Adjusted Monthly Base Rent in effect from time to time, determined pursuant to Section 39.4 below; (b) Lessor shall have no further right to extend the Term; and (c) the terms of Exhibit "B" shall be inapplicable to the Option Term.

39.2 The Extension Option must be exercised, if at all, by written notice ("Extension Notices) delivered by Lessee to Lessor no later than the date which is one hundred eighty (180) days prior to the expiration of the initial Term. The Extension Option shall, at Lessor's sole option, not be deemed to be properly exercised if, at the time such Extension Option is exercised or on the scheduled commencement date for the Option Term, Lessee is then in default or Lessee has been chronically delinquent during the initial Term as described in Section 15.1(e) of the Lease.

39.3 Notwithstanding the determination of fair market rental rate pursuant to Exhibit "C" or of Adjusted Monthly Base Rent pursuant to Section 39.4, in no event shall the monthly base rent payable during any month of the Option Term be less than the monthly base rent payable during the previous month.

39.4 Adjusted Monthly Base Rent shall be determined in accordance with the following formula on the first day of each of the five (5) years of the Option Term (the "Adjustment Date(s)") and shall be in effect for the subsequent 12 months:

Adjusted Monthly Base Rent = monthly base rent as  
of the day prior to applicable Adjustment  
Date x (CPI-2/CPI-1).

In applying the above, the following definitions shall be used:

- 39.4.1 "Preceding Year of the Lease Term" Means the 12 months preceding the Applicable Adjustment Date.
- 39.4.2 "Bureau" means the U.S. Department of Labor, Bureau of Labor Statistics or any Successor agency that shall issue the indices or data referred to in Section 39.1.1.3
- 39.4.3 "CPI" means the monthly indices of the Consumer Price Index, All Urban Consumers (CPI-U), U.S. City Average, All Items (1982-84 equals 100), issued by the Bureau.
- 39.4.4 "CPI-1" means the monthly CPI for the Calendar month three (3) months before The commencement of the Preceding Year Of the Lease Term.

39.4.5 "CPI-2" means the monthly CPI for the Calendar month three (3) months before The applicable Adjustment Date.

39.4.6 If at the time of the computations provided for in Section 39.4, no CPI is compiled and published by any agency of the federal government, the statistics reflecting cost of living increases, as compiled by any institution or organization or individual generally recognized as an authority by financial and insurance institutions and acceptable to Lessor, shall be used as a basis for such adjustments.

39.4.7 If Adjusted Monthly Base Rent exceeds the fair market rental rate for the Premises, Lessor shall notify Lessee in writing of the Adjusted Monthly Base Rent. Such notice shall include all the data used by Lessor in calculating the Adjusted Monthly Base Rent. In the event that Adjusted Monthly Base Rent is not determined prior to the commencement to any year during the Option Term, Lessee shall continue to pay to Lessor the monthly base rent last in effect until Lessee is notified of the Adjusted Monthly Base Rent and that the same exceeds the fair market rental rate for the Premises. Upon such notice, Lessee shall commence paying Adjusted Monthly Base Rent at the time the next monthly base rent payment is due, at which time Lessee shall also reimburse Lessor for the difference between the amount of rental paid during such interim period and the amount of the Adjusted Monthly Base Rent for said period.

40. Right of First Offer to Purchase  
-----

40.1 During the Term, before entering into an agreement to sell the Project, Lessor will notify Lessee ("Lessor's Notice") of the purchase price and other material terms upon which Lessor would be willing to sell the Project to Lessee (the "Sales Terms"). If within ten (10) days after receipt of Lessor's Notice, Lessee agrees in writing to purchase the Project upon the Sales Terms, Lessor or its counsel will prepare a formal Purchase and Sale Agreement and Escrow Instructions (the "Agreement"), which Agreement shall be acceptable to Lessor in its sole and absolute discretion. If Lessee does not deliver its notice of intent to purchase the Project as offered in Lessor's Notice within such ten (10) day period, or if the Agreement has not been fully executed and delivered by Lessor and Lessee within ten (10) days after Lessor's first delivery of the Agreement to Lessee, Lessor and Lessee shall have no further rights or obligations under this Paragraph 40, and Lessor will have the right to sell the Project to a third party at a price and upon such terms as are acceptable to Lessor, whether or not such price and terms are more or less favorable than those offered to Lessee. This right of first offer to purchase the Project is personal to Titan Motorcycle Co. of America and is not transferrable except to an affiliate of Titan Motorcycle Co. of America ("Titan Affiliate") in connection with an assignment of this Lease or in connection with a sublease of all of the Premises for the entire remaining term (less any de minimus reversion to Titan Motorcycle Co. of America), where such assignment or sublease transaction has been consented to by Lessor pursuant to Paragraph 14 of the Lease. For purposes hereof, a Titan Affiliate shall mean an entity controlled by or under common control with Titan Motorcycle Co. of America.

40.2 Time is of the essence of the provisions of this Paragraph 40.

40.3 Lessor's obligations under this Paragraph 40 are conditioned upon the following: (i) Lessee not being in default under this Lease as of the date Lessor gives Lessor's Notice and no event having occurred as of the date Lessor gives Lessor's Notice that with the giving of notice or the passage of time would constitute a default under this Lease; (ii) Lessee not having been chronically delinquent as described in Section 15.1(e) of the Lease at any time prior to the date Lessor's Notice is given; and (iii) Lessor's determination, upon a review of Lessee's most recent financial statements, that Lessee's financial condition permits it to fully perform in accordance with the Agreement.

40.4 Except as set forth in Section 17.11 of the Lease, Lessee shall not allow its rights under this Paragraph 40 to be placed of record. A violation of the preceding sentence shall terminate Lessee's rights pursuant to this Paragraph 40 and will constitute an incurable and material default under this Lease.

40.5 All of Lessee's rights set forth in this Paragraph 40 are hereby subordinated to any existing or future mortgage or deed of trust encumbering the Project.

40.6 If Lessee purchases the Property, prepaid rent will be credited against the purchase price.

41. Right of First Refusal to Lease.  
-----

41.1 Lessor grants Lessee a right of first refusal ("ROFR") to lease any other space in the Project pursuant to this Paragraph 41.

41.2 If, during the Term of this Lease, Lessor receives a bona fide offer to lease any portion of the Project from a third party and intends to accept the offer, or if Lessor decides to make an offer to lease any portion of the Project, Lessor will give a written copy of the offer (either of which are herein called a "Lease Offer") to Lessee either prior to acceptance of the offer or after such acceptance (in which latter case, the lease shall be subject to Lessee's rights hereunder). For purposes of this Paragraph 41, a non-binding letter of intent shall be deemed a Lease Offer. Lessee will have the right to match the offer received by Lessor or accept the offer made by Lessor by written notice to Lessor given within eight (8) business days after Lessee's receipt of the offer ("Acceptance Notice"). If Lessee matches or accepts the offer, as the case may be, in writing, Lessee will be bound to lease such space strictly in accordance with the terms of the offer.

41.3 The ROFR is a continuing right and, subject to the terms of this Paragraph 41, shall apply to all Lease Offers made during the term of this Lease, whether or not Lessee has failed to match or accept any previous Lease Offer pursuant to this Paragraph 41. If, and only if, (i) Lessee notifies Lessor in writing that Lessee does not elect to lease the applicable portion of the Project upon Lessee's receipt of any Lease Offer, or (ii) Lessee does not timely deliver an Acceptance Notice to Lessor with respect to any Lease Offer, then

Lessor shall have no further obligation to lease the applicable portion of the Project to Lessee pursuant to the applicable Lease Offer, and Lessor shall thereafter have the right to lease the applicable portion of the Project to the third party who initially made the Lease Offer or to whom Lessor initially made the Lease Offer, or to any other person, substantially in accordance with the terms of such Lease Offer. If Lessor does not sign a lease with such third party or other party within one hundred eighty (180) days after the date of the original Lease Offer, or if the terms of a Lease Offer are materially changed to the advantage of such third party after it has been delivered to Lessee, then Lessee will once again have the first right to lease the applicable portion of the Project in accordance with the terms of this Paragraph 41 and Lessor will once again be obligated to comply with the terms of this Paragraph 41 prior to leasing the applicable portion of the Project to anyone other than Lessee.

41.4 Lessee shall have no ROFR if at the time Lessor gives Lessee notice of the Lease Offer or if at the time set for the commencement date of such new lease (i) a default exists under this Lease, or (ii) an event has occurred that would be a default under this Lease after either notice or the passage of time, or both, or (iii) Lessee has assigned all or part of this Lease or has sublet all or part of the Property, whether with or without Lessor's consent.

41.5 The ROFR is personal to Titan Motorcycle Co. of America, Inc. and may not be assigned by it except to a Titan Affiliate in connection with an assignment of this Lease or a sublease of all of the Premises for the entire remaining Term (less any de minimum reversion to Titan Motorcycle Co. of America), where such assignment or sublease transaction has been consented to by Lessor pursuant to Paragraph 14 of the Lease. Except as expressly permitted above, any attempted assignment of the ROFR will be void, will terminate the ROFR and will constitute an incurable and material default of this Lease.

41.6 Except as set forth in Section 17.11 of the Lease, Lessee shall not allow its ROFR to be placed of record. A violation of the preceding sentence shall terminate the ROFR and will constitute an incurable and material default under this Lease.

41.7 Time is strictly of the essence of each and every provision in this Paragraph 41.

42. Covenant of Quiet Enjoyment. Lessor covenants that so long as Lessee fulfills the conditions and covenants required of it to be performed under this Lease, Lessee will have peaceful and quiet possession of the Premises during the term hereof.

43. Brokers. Lessor and Lessee represent and warrant to each other that they have not had any dealings with any real estate brokers, finders or agents in connection with this Lease other than CB Commercial Real Estate Group, Inc. (Pat Feeney and Pete Wentis) (the "Broker"). Lessor and Lessee agree to indemnify, defend (with counsel selected by the indemnified party and reasonably acceptable to the indemnifying party) and hold the other party and the other parties' nominees, successors and assigns harmless from any and all claims, costs, commissions, fees, or damages by any person or firm whom the indemnifying party authorized or employed, or acted by implication to authorize or employ, to act

for the indemnifying party in connection with this Lease. Notwithstanding the foregoing, Lessor covenants and agrees to pay all commissions owed to the Broker.

EXHIBIT "B"

WORK LETTER AGREEMENT

This Work Letter Agreement supplements the Standard Commercial Industrial Triple Net Lease (the "Lease"), dated and executed concurrently herewith, by and between Lessor and Lessee, covering certain premises described in the Lease (the "Premises"). All terms not defined herein shall have the same meaning as set forth in the Lease.

1. Construction of Leasehold Improvements.  
-----

1.1. Leasehold Improvements. Lessee shall furnish and install within the Premises those items of general construction (including any distribution to the Premises) of any utilities and heating, ventilating and air conditioning service as is required to serve the Premises) shown on the plans and specifications finally approved by Lessor and Lessee pursuant to Paragraph 2 below (the "Leasehold Improvements") in compliance with all applicable codes and regulations. The Leasehold Improvements shall be constructed substantially in accordance with the preliminary specifications and architectural renderings described on Schedule 1 attached hereto (the "Preliminary Plans"). The Leasehold Improvements shall be constructed pursuant to this Work Letter Agreement by Lessee's general contractor, MD Construction, Inc. ("Lessee's Contractor") and subcontractors. Lessee's Contractor shall not be changed without the prior written consent of Lessor.

1.2. Construction Representatives. Lessor hereby appoints Sandy Alter as Lessor's representative ("Lessor's Representative") to act for Lessor in all matters covered by this Exhibit "B." Lessee hereby appoints Frank Kerry as Lessee's representative ("Lessee's Representatives") to act for Lessee in all matters covered by this Exhibit "B." All communications with respect to the matters covered by this Exhibit "B" shall be made to Lessor's Representative or Lessee's Representative, as the case may be. Either party may change its representative under this Exhibit "B" at any time by written notice to the other party.

2. Construction Plans for Premises.  
-----

2.1. Preparation of Space Plans. Lessee's Contractor shall prepare preliminary space plans for the Premises. Lessee's Contractor shall also prepare detailed space plans sufficient to convey the architectural design of the Premises and layout of the Leasehold Improvements therein ("Space Plans"). The Space Plans shall be submitted to Lessor for Lessor's reasonable approval. If Lessor shall disapprove of any portion of the Space Plans, Lessor shall advise Lessee in writing of such disapproval and the reasons therefor. Lessee shall then submit to Lessor for Lessor's reasonable approval, a redesign of the Space Plans, incorporating those revisions required by Lessor.

2.2. Preparation of Final Plans. Based on the approved Space Plans, Lessee shall cause an architect selected by Lessee and reasonably approved by Lessor (the "Architect") to prepare complete architectural plans,

drawings and specifications and complete engineering, mechanical, structural and electrical working drawings for all of the Leasehold Improvements for the Premises (collectively, the "Final Plans") showing: (a) the subdivision (including partitions and walls), layout, lighting, finish and decoration work (including carpeting and other floor coverings) desired by Lessee for the Premises; (b) all internal and external communications and utility facilities which will require conduiting or other improvements from the shell of the building of which the Premises are a part (the "Building") and/or within common areas; and (c) all other specifications for the Leasehold Improvements. The Final Plans shall be approved in the same manner as provided in Section 2.1 above for approval of Space Plans. Lessor need not approve Final Plans that would require material alterations of the Building shell.

2.3. Requirements of Lessee's Final Plans. Lessee's Final Plans shall include locations and complete dimensions and shall: (a) be compatible with the Building shell and with the design, construction and equipment of the Building; (b) be compatible with and of at least equal quality to the existing improvements in the Building, and (c) comply with all applicable laws and ordinances, and the rules and regulations of all governmental authorities having jurisdiction, and all applicable insurance regulations.

2.4. Changes to Shell of Building. If the approved Final Plans or any amendment thereof or supplement thereto shall require material alterations of the Building shell (without implying any obligation on Lessor to approve of the same), such alterations shall be performed by Lessee's Contractor as part of the Leasehold Improvements and the cost of the Building shell work caused by such alterations shall be charged against the Allowance.

2.5. Approvals. Lessee shall be solely responsible for obtaining approval of the Final Plans by all governmental agencies having jurisdiction, including all necessary permits and the temporary and permanent certificate of occupancy (or other required, equivalent approval from the local governmental authority permitting occupancy of the Premises). Lessor shall reasonably cooperate with Lessee in obtaining such approvals.

### 3. Allowance for Leasehold Improvements.

-----

3.1. Allowance. Lessee shall receive from Lessor an allowance (the "Allowances") of up to, but not exceeding, \$183,768.00, which Allowance shall be used solely to contribute toward payment of the Work Cost (as defined below) of the Leasehold Improvements. All items of Leasehold Improvements, whether or not the cost thereof is covered by the Allowance, shall become the property of Lessor upon expiration or earlier termination of the Lease and shall remain on the Premises at all times during the Term of this Lease, except as otherwise provided in Section 7.3 of the Lease.

3.2. Excess Work Costs. In the event that the actual Work Costs exceed the Allowance, Lessee shall pay such excess and Lessor shall have no responsibility therefor. If prior to or during the construction of the Leasehold Improvements, Lessor reasonably estimates that the Work Cost will exceed the Allowance by more than \$50,000.00, Lessor may, at its option, require Lessee to post a payment and performance bond or other surety satisfactory to Lessor for the estimated excess Work Cost. Such excess shall be paid in accordance with

Section 3.4 below. If the Allowance exceeds the Work Cost, Lessee shall not be entitled to any payment, rent reduction or credit therefor.

3.3. Changes. In the event that changes to the Space Plans or Final Plans are requested by Lessee or required by any governmental agency subsequent to Lessor's approval thereof, such changes and the costs thereof shall be forwarded to Lessor for approval (which approval shall not be unreasonably withheld) prior to incorporation into the work. After Lessor's approval of the changes and the costs thereof, the changes shall be incorporated into the work by means of a change order.

3.4. Payment of Allowance. The Allowance shall be paid by Lessor in accordance with this Section 3.4. Lessee or Lessee's Contractor shall provide Lessor by the fifteenth (15th) day of each calendar month with an invoice prepared by Lessee's Contractor (or Lessee's Architect with respect to design costs) setting forth the Work Cost payable since the last such invoice. Such invoice shall be accompanied by (i) a certificate from Lessee's Architect or Lessee's Contractor certifying that the Work Cost set forth in such invoice is accurate and that all Work Costs set forth in prior invoices have been paid, (ii) copies of all invoices from subcontractors setting forth the Work Cost on Lessee's Contractor's invoice, (iii) receipts from such subcontractors acknowledging payment of the Work Cost set forth in prior invoices, and (iv) copies of lien waivers, or conditional lien waivers, in both Lessor's and Lessee's favor, from Lessee's Contractor and subcontractors (such waivers shall be conditional with respect to the Work Cost set forth in the invoice which they are accompanying and final with respect to the Work Cost on prior invoices). Lessor's approval of all such invoices shall not be unreasonably withheld, conditioned, or delayed. Lessor shall pay to Lessee's Contractor, or to Lessee's Architect with respect to design costs, within ten (10) calendar days of receipt of all of the foregoing, the Work Cost set forth on the invoice, less the amount of the retention as described in Section 4.1 below, to the extent Lessor, in its reasonable judgment, deems such Work Cost to be accurate. Upon exhaustion of the Allowance it shall become Lessee's responsibility to pay the Work Cost as set forth on such invoices, also within such ten (10) calendar day period, and Lessee shall provide Lessor promptly upon Lessor's request with reasonable evidence of such payment. Upon final completion of all work to be undertaken by Lessee (including all punchlist items), which final completion shall be certified by the Architect and which final completion shall occur not later than one (1) year after the Lease Commencement Date, Lessee shall execute and deliver to Lessor a written acknowledgment that the Leasehold Improvements are approved by Lessee and a written certificate setting forth the amount and nature of all costs and expenses billed to Lessee in connection with the design, permit approval and construction of the Leasehold Improvements. Within ten (10) days after Lessor's receipt of such certificate, accompanied by copies of all related bills, invoices, receipts and final conditional lien waivers of all lien rights, in recordable form, from Lessee's Contractor and all subcontractors, Lessor shall pay to Lessee the remaining amount of such cost and expenses, including the actual hold back provided in the construction contract, up to and including, but not exceeding, the Allowance. Lessee shall receive no payment, rent reduction or credit for any unused portion of the Allowance. Lessor shall not be obligated to pay any portion of the Allowance for Work Cost incurred after the date that is one (1) year after the Lease Commencement Date.

4. Construction.

- - - - -

4.1. Construction Contract. Not less than ten (10) days prior to commencement of construction of the Leasehold Improvements, Lessee shall enter into a construction contract with Lessee's Contractor, which contract shall provide for the retention of not less than ten percent (10%) of the monthly progress payments, and shall otherwise be approved in writing by Lessor, which approval shall not be unreasonably withheld or delayed. Lessee shall be solely responsible for the performance of the work of the Leasehold Improvements to be performed by Lessee's Contractor and any and all subcontractors, suppliers and the like performing services for Lessee and/or Lessee's Contractor.

4.2. Construction Schedule. Prior to commencement of construction of any Leasehold Improvements, Lessee shall furnish to Lessor's Construction Representative for approval in writing a schedule setting forth projected completion dates.

4.3. Prosecution of Leasehold Improvements. Following Lessor's approval of the Final Plans, and Lessee and Lessee's Contractor's selection of subcontractors (as approved by Lessor) and execution of the construction contract pursuant to Section 4.1 above, Lessee shall direct Lessee's Contractor and such subcontractors to immediately commence and diligently complete construction of the Leasehold Improvements; provided, however, Lessee shall have up to one year after the Lease Commencement Date to finally complete construction of the Leasehold Improvements. All Leasehold Improvements work shall be carried out in accordance with reasonable rules and regulations promulgated by Lessor. Such work shall be performed diligently, in a first-class, workmanlike manner and in accordance with all applicable laws. Prior to commencing such work, Lessee shall furnish Lessor with sufficient evidence that Lessee and Lessee's Contractor are carrying worker's compensation insurance in statutorily-required amounts, comprehensive general liability insurance and all other insurance in compliance with the Lease. Lessor shall have the right to enter the Premises at all times to inspect the work and to post notices of nonresponsibility. Lessee shall ensure lien-free completion of the Premises, and Lessee shall comply with all provisions of the Lease regarding liens, including Paragraph 15 thereof.

5. Work Cost. "Work Cost" means: (a) all design and engineering fees incurred in connection with the preparation of the Preliminary Plans, Space Plans and Final Plans (including the cost of Lessor's consulting engineers and other consultants); (b) costs of permits, fees and taxes; (c) testing and inspecting costs; (d) the actual costs and charges for material and labor, contractor's profit and contractor's general overhead incurred by Lessee in having the Leasehold Improvements done; and (e) all other costs expended in the construction of the Leasehold Improvements.

STOCK OPTION AND INCENTIVE PLAN

## 1. PURPOSE

The purpose of the Titan Motorcycle Co. of America Stock Option and Incentive Plan (the "Plan") is to provide a means through which Titan Motorcycle Co. of America, an Arizona corporation, (the "Company") and its Subsidiaries may attract able persons to enter the employ of the Company and its Subsidiaries and to provide a means whereby those key employees upon whom the responsibilities for the successful administration and management of the Company and its Subsidiaries rest, and whose present and potential contributions to the welfare of the Company and its Subsidiaries are of importance, can acquire and maintain stock ownership, thereby strengthening their commitment to the welfare of the Company and its Subsidiaries and the desire to remain in the employ of the Company and its Subsidiaries.

A further purpose of the Plan is to provide such key employees with additional incentive and reward opportunities designed to enhance the profitable growth of the Company and its Subsidiaries. 4. ADMINISTRATION

The Committee shall administer the Plan. The Committee shall consist of at least two individuals who are members of the Board, and, to the extent required to comply with Section 16(b) of the Act and/or Section 162(m) of the Code, who are "disinterested persons," as such term is defined in the rules and regulations issued under Section 16(b) and/or Section 162(m). A majority of the Committee shall constitute a quorum. The acts of a majority of the members present at any meeting at which a quorum is present and acts approved in writing by a majority of the Committee in lieu of a meeting shall be deemed the acts of the Committee. No member of the Committee, while serving as such, shall be eligible to receive an Award under the Plan. Except as otherwise provided in the Plan, the Committee shall have exclusive power, authority and discretion to:

- a. Select Eligible Employees to participate in the Plan.
- b. Determine the Awards to be made to each Eligible Employee selected.
- c. Determine the time or times when Awards will be made.
- d. Determine the conditions (including the performance requirements) to which the payment of Awards may be subject.
- e. Prescribe the form or forms evidencing Awards.

- g. Make all determinations relating to the Plan.

The Committee's interpretation of the Plan or any Awards granted pursuant thereto and all decisions and determinations by the Committee with respect to the Plan shall be final, binding, and conclusive on all parties.

#### 5. SHARES SUBJECT TO THE PLAN

The Committee may, from time to time, grant Awards to one or more Eligible Employees; provided, however, that:

(i) Subject to Section 13, the aggregate number of shares of Stock made subject to Awards under this Plan may not exceed 1,000,000.

(ii) Shares shall be deemed to have been used in payment of SARs and Performance Shares only if such shares are actually delivered to the Holder.

(iii) To the extent that an Award lapses or the rights of its Holder terminate, any shares of Stock subject to such Award shall again be available for the grant of an Award, but only if the Holder has not received any benefits of ownership from such shares prior to the time of such lapse or termination. A Holder shall not be deemed to have received benefits of ownership with respect to shares subject to an Award merely because the Holder has voting rights with respect to such shares or where dividends accumulate with respect to such shares if such dividends are forfeited by the Holder when and if the underlying shares of Stock are forfeited.

(iv) Stock delivered by the Company in settlement under the Plan may be authorized and unissued Stock, Stock held in the treasury of the Company, Stock purchased on the open market, or Stock purchased by private purchase at prices no higher than the Fair Market Value as defined in Section 2k at the time of purchase.

#### 6. ELIGIBILITY

Officers and key employees of the Company and its Subsidiaries who, in the opinion of the Committee, are mainly responsible for the continued growth and development and financial success of the business of the Company or one or more of its Subsidiaries shall be eligible to be granted Awards under the Plan. Subject to the provisions of the Plan, the Committee shall, from time to time, select from such eligible persons those to whom Awards shall be granted and determine the size or amount of each such Award.

7. STOCK OPTIONS

One or more Options can be granted to any Eligible Employee. Each Option so granted shall be subject to the following conditions:

a. Option price. The option price per share of Stock shall be set by the grant, provided that in the case of an Incentive Stock Option, the option price per share may not be less than Fair Market Value at the Date of Grant.

b. Form of payment. Upon the exercise of all or any part of an Option, the option price shall be payable in full by check, in shares of Stock owned by the Holder to the extent permitted by law, or in any combination thereof at the election of the Holder. Payment of the option price with shares of Stock owned by the Holder shall be made by assigning and delivering such shares to the Company. The shares shall be valued at Fair Market Value on the exercise date of the Option. Except as otherwise provided by law or the terms of the Stock Option Agreement, the option price may also be paid by the Holder directing the Company to withhold from the shares of Stock that would otherwise be issued upon exercise of the Option that number of shares having a Fair Market Value on the exercise date equal to the option price. A Holder who elects to exercise all or any part of his Option by directing the Company to withhold shares subject to the exercised Option shall notify the Company in writing of his intent to do so. A Holder electing to pay the option price in such manner shall receive the number of shares of Stock determined pursuant to the following formula:

$$\begin{array}{rcl} \text{Number of Shares} & \times & \text{Fair Market Value} \\ \text{of} & = & \text{on Exercise Date} \\ \text{Shares} & & \text{Option Price} \\ & & \text{-----} \\ & & \text{Fair Market Value} \\ & & \text{on Exercise Date} \end{array}$$

c. Other terms and conditions. If the Holder has not died or terminated, the Option shall become exercisable in such manner and within such period or periods, not to exceed 10 years from its Date of Grant, as set forth in the Stock Option Agreement upon payment in full, in any manner permitted under Section 7b. Except as otherwise provided in this Plan or in the applicable Stock Option Agreement, any Option may be exercised in whole or in part at any time. An Option may lapse under the following circumstances:

(i) Prior to the Holder's termination of employment for any reason, the Option shall lapse ten (10) years after it is granted, unless an earlier time is set by the grant.

(ii) If the Holder separates from employment other than by Normal Termination, it shall lapse at the time of Termination.

(iii) If the Holder's Termination is a Normal Termination, it shall lapse three months after his Normal Termination.

(iv) If the Holder dies within the option period or within three months after Normal Termination, the Option shall lapse unless it is exercised within the option period and in no event later than 15 months after the date of the Holder's death. Upon the Holder's death, any exercisable Options may be exercised by the Holder's legal representative or representatives, by the person or persons entitled to do so under the Holder's last will and testament or, if the Holder shall fail to make testamentary disposition of such Option or shall die intestate, by the person or persons entitled to receive said Option under the applicable laws of descent and distribution.

d. Stock Option Agreement. Each Option granted under the Plan shall be evidenced by a "Stock Option Agreement" between the Company and the Holder of the Option containing such provisions as may be determined by the Committee, subject to the following terms and conditions.

(i) Any Option or portion thereof that is exercisable shall be exercisable for the full amount or for any part thereof, except as otherwise determined by the grant.

(ii) Every share purchased through the exercise of an Option shall be paid for in full at the time of the exercise. Each Option shall cease to be exercisable, as to any share, when the Holder purchases the share or exercises a related SAR or when the Option lapses.

(iii) Options shall not be transferable by the Holder except by will or the laws of descent and distribution and shall be exercisable during the Holder's lifetime only by him.

(iv) Notwithstanding any provision (other than Section 7e), in the event of a public tender for all or any portion of the Stock or in the event that a proposal to merge, consolidate, or otherwise combine with another company is submitted for shareholder approval, the Committee may in its sole discretion declare previously granted Options to be immediately exercisable.

e. Individual dollar limitations. The aggregate Fair Market Value (determined as of the time the Option is granted) of all shares of Stock with respect to which Incentive Stock Options are first exercisable by any Holder in any calendar year may not exceed \$100,000.

8. STOCK APPRECIATION RIGHTS

Any Option granted under the Plan may include a SAR, either at the time of grant or by amendment. SARs may also be separately granted pursuant to an Award. Such SARs shall be subject to such terms and conditions not inconsistent with the Plan as the Committee shall impose, including the following:

a. Right to exercise. A SAR issued pursuant to an Option shall be exercisable to the extent the Option is exercisable and only with the consent of the Committee. A SAR which is not issued pursuant to an Option shall only be exercisable during the Award period specified in the Stock rights agreement. Unless otherwise provided in the Stock rights agreement, the Holder's right to exercise any outstanding SARs shall terminate upon the Holder's termination of employment with the Company and its Subsidiaries for any reason, including but not limited to, resignation, discharge, death or disability.

b. Failure to exercise. If, on the last day of the option period or specified Award period, the Fair Market Value of the Stock exceeds the option price or SAR price determined at the time the Award is granted, and the Holder has not exercised such SAR, such right shall be deemed to have been exercised by the Holder on such last day.

c. Payment. An exercisable SAR granted pursuant to an Option shall entitle the Holder to surrender unexercised the Option in which it is included, or any portion thereof, and to receive in exchange therefor an amount equal to the excess of the "value", as hereinafter defined, of one share of Stock over the option price per share multiplied by the number of shares subject to the Option or portion thereof which is so surrendered. Upon exercise of a SAR not issued pursuant to an Option, the Holder shall receive Stock and/or cash in an amount equal to that number of shares of Stock having an aggregate value equal to the excess of the value of one share of Stock over the SAR price specified in the Stock rights agreement multiplied by the number of SARs exercised. The Committee may, in its sole discretion, elect to have the Company settle its obligation arising out of the exercise of a SAR by the payment of cash, the delivery of shares of Stock having an aggregate value equal to the amount of the Company's obligation as determined pursuant to this Section 8c, or partially by the payment of cash and partially by the delivery of shares. The Committee shall also have the right to place such limitations and restrictions on the Company's obligation to make such cash payments or deliver shares under SARs as the Committee, in its sole discretion, deems to be in the best interest of the Company. The term "value" as applied to shares shall be Fair Market Value on the trading day next preceding the date on which the SAR is exercised. To the extent that a SAR included in an Option is exercised, such Option shall be deemed to have been exercised, and shall not be deemed to have lapsed.

d. Other limitations. Such other limitations as the Committee and/or the Stock Option Agreement or Stock rights agreement shall impose.

9. PERFORMANCE SHARES

Each Performance Share shall be deemed to be the equivalent of one share of Stock. The Award of Performance Shares under the Plan shall not entitle the Holder to any interest in or to any dividend, voting, or other rights of a shareholder of the Company. Performance Shares shall be credited to a Performance Share account to be maintained for each Holder. The value of the Performance Shares in a Holder's Performance Share account at the time of Award or the time of payment shall be an amount equal to the Fair Market Value at such time of an equivalent number of shares of the Stock (subject to the limitation provided in Section 9c).

a. Award grants. Performance Share Awards may be made by the Committee, in its discretion, taking into account a Holder's responsibility level, performance, potential, cash compensation level, the Fair Market Value of the Stock at the time of the Awards, and such other factors as it deems appropriate. Grants of Performance Shares shall be deemed to have been on January 1 of the year in which such grants are made.

The Committee shall not, over the term of the Plan, grant to any single Holder as Performance Shares more than 30 percent of the maximum number of shares of Stock which may be granted under Paragraph 5a. Awards cancelled or portions of Awards not paid out in full to any single Holder shall not be included for purposes of applying this limitation.

b. Right to payment of Performance Shares. Following the end of the Award Period, the Holder of a Performance Share shall be entitled to receive payment from his Performance Share account based on the achievement or performance measures for such Award Period, as determined by the Committee. The Committee shall have the right to establish criteria for measuring executive performance prior to the beginning of the Award Period but subject to such later revisions as the Committee shall deem appropriate to reflect significant or unforeseen events or changes.

In the event a Holder terminates employment during an Award Period, payment of outstanding Performance Share Awards will be as follows:

(i) If the Holder resigns or is discharged, no payment will be made and the Award will be completely forfeited.

(ii) If the Holder retires pursuant to the Company or Subsidiary retirement plan covering that Holder, the Holder will be entitled to payment at the end of the Award Period in an amount which bears the same relationship to the Award's Fair Market Value upon the Valuation Date as the period of service completed after the grant of the Award but prior to the retirement bears to the Award Period.

(iii) If the Holder dies or becomes disabled, the Holder (or his designated beneficiary or the person entitled to his Performance Shares under Section 12d) will be entitled to payment at the end of the Award Period of a prorated amount which is determined in the same manner as the amount payable under Section 9b(ii).

c. Form and timing of payment. No payment of Performance Shares shall be made prior to the end of an Award Period. Payment therefor shall be made as soon as practicable after the receipt of audited financial statements relating to the last year of such period. The Committee may, in its discretion, limit the Company's payment obligation for Performance Shares to the lesser of Fair Market Value at the time of payment or an amount equal to not more than 200 percent of the Fair Market Value at the time such Performance Shares were granted.

The payment to which a Holder shall be entitled at the end of an Award Period shall be a dollar amount equal to the Fair Market Value on the Valuation Date (or such lesser amounts as the Committee may establish) of the number of shares of Stock equal to the number of Performance Shares earned and payable to him in accordance with Section 9b. Payment shall normally be made 50 percent in cash and 50 percent in Stock. The Committee, however, may authorize payment in such other combinations of cash and Stock or all in cash or all in Stock, as it deems appropriate.

The number of shares of Stock to be paid in lieu of cash will be determined by dividing the portion of the payment not paid in cash by:

(i) The Fair Market Value of Stock on the date on which the shares are issued by the Company, or

(ii) The price per share paid for shares purchased for a Holder's account should the Committee determine, in its discretion, to authorize the purchase of shares on behalf of the Holder on the open market or through private purchase.

#### 10. RESTRICTED STOCK AWARDS

a. Restriction period to be established by the Committee. At the time a Restricted Stock Award is made, the Committee shall establish a period of time (the "Restriction Period") applicable to such Award, which shall not be less than three years. At the discretion of the Committee, each Restricted Stock Award may have a different Restriction Period. In the event of a public tender for all or any portion of the Stock or in the event that any proposal to merge or consolidate the Company with another company is submitted to the shareholders for a vote, the Committee may in its sole discretion change or eliminate the Restriction Period. Except as permitted above, under Section 10c, or pursuant to Section 13, the Restriction Period applicable to a particular Restricted Stock Award shall not be changed.

b. Other terms and conditions. Stock awards pursuant to a Restricted Stock Award shall be represented by a stock certificate

registered in the name of the Holder of such Restricted Stock Award. The Holder shall have the right to enjoy all shareholder rights during the Restriction Period with the exception that:

(i) The Holder shall not be entitled to delivery of the stock certificate until the Restriction Period has expired.

(ii) The Company may either issue shares subject to such restrictive legends

and/or stop transfer instructions as it deems appropriate or provide for retention of custody of the Stock during the Restriction Period.

(iii) The Holder may not sell, transfer, pledge, exchange, hypothecate, or otherwise dispose of the Stock during the Restriction Period. (iv) A breach of the terms and conditions established by the Committee pursuant to the Restricted Stock Award shall cause a forfeiture of the Restricted Stock Award, and any dividends withheld thereon.

(v) Cash and Stock dividends may be either currently paid or withheld by the Company for the Holder's account. At the discretion of the Committee, interest may be paid on the amount of cash dividends withheld, including cash dividends on stock dividends, at a rate and subject to such terms as shall be determined by the Committee.

c. Forfeiture provisions. In the event a Holder terminates employment during a Restriction Period, his right to a Restricted Stock Award will be determined as follows:

(i) If the Holder resigns or is discharged, the Award will be completely forfeited.

(ii) Except as otherwise provided in Section 10c(iv), if the Holder retires, pursuant to the Company or Subsidiary retirement plan covering that Holder, the Holder will be vested in that portion of the Award as bears the same relationship to the entire Award as the period of service completed beginning on the date the Award was made and ending on such retirement bears to the Restriction Period.

(iii) Except as otherwise provided in Section 10c(iv), if the Holder dies or becomes disabled, the Holder (or his designated beneficiary or the person entitled to his Restricted Stock under Section 12d) will be vested in a portion of the Award, with such portion to be determined in the same manner as the portion under Section 10c(ii).

(iv) Notwithstanding Section 10c(ii) and (iii), if one or more of the restrictions placed on a Restricted Stock Award by the Committee require an action by the Holder or the occurrence of an event

other than the passage of time, and the Holder retires, dies or becomes disabled before such restriction or restrictions have been satisfied, the Holder shall not be vested in any portion of the Award unless the Committee, in its sole and absolute discretion, elects to waive satisfaction of such restriction or restrictions as a condition of receipt of all or any part of the Award.

Any portion of a Restricted Stock Award in which the Holder is vested shall be received as soon as practicable following termination.

d. Payment for Restricted Stock. A Holder shall not be required to make any payment for Stock received pursuant to a Restricted Stock Award.

11. DIVIDEND EQUIVALENTS

Any Option granted under the Plan may include at no additional cost Dividend Equivalents, either at the time of grant or by amendment. Dividend Equivalents will be based on the dividends declared on the Stock on record dates during the period between the date an Option is granted or the date the Dividend Equivalents are granted, if later, and the date such Option is exercised. Such Dividend Equivalents shall be converted to additional shares of the Stock as follows:

$$\begin{array}{rclcl} \text{Number of Dividend} & & \text{Number of Shares} & & \text{Dividend} \\ \text{Equivalent Shares} & = & \text{Under the Option} & \times & \text{per Share} \\ & & \text{-----} & & \text{-----} \\ & & & & \text{Book Value of Share} \end{array}$$

The Dividend Equivalents earned with respect to a Holder shall be distributed to the Holder (or his successor in interest) in the form of shares of the Stock at the time the Option is exercised. Dividend Equivalents shall be computed, as of each dividend record date, both with respect to the number of shares under the Option and with respect to the number of Dividend Equivalent shares previously earned by the Holder (or his successor in interest) and not issued during the period prior to the dividend record date. For purposes of this Section 11, the book value of a share of the Stock shall be determined in accordance with the Company's regular established accounting practices as of the last business day of the month immediately preceding the dividend record date.

12. GENERAL

a. Government and other regulations. The obligation of the Company to make payment of Awards in Stock or otherwise shall be subject to all applicable laws, rules, and regulations, and to such approvals by government agencies as may be required. The Company shall be under no obligation to register under the Securities Act of 1933, as amended (the "1933 Act"), any of the shares of Stock paid under the Plan. If the shares paid under the Plan may in certain circumstances be exempt from registration under the 1933 Act, the Company may restrict the transfer of such shares in such manner as it deems advisable to ensure the availability of any such exemption.

b. Tax withholding. The Company or a Subsidiary, as appropriate, shall have the right to deduct from all Awards paid in cash any federal, state or local taxes as required by law to be withheld with respect to such cash payments and, in the case of Awards paid in Stock, the Holder may be required to pay to the Company or a Subsidiary, by check, in shares of Stock owned by the Holder to the extent permitted by law, or in any combination thereof elected by the Holder, the amount of any such taxes which the Company or Subsidiary is required to withhold with respect to such Stock. Payment of taxes with shares of Stock owned by the Holder shall be made by assigning and delivering such shares to the Company. Such shares shall be valued at Fair Market Value on the business day immediately preceding the date on which such shares are assigned or delivered. Except as otherwise provided by law or the terms of the governing Award agreement, any taxes which are required to be withheld with respect to an Award paid in Stock may also be paid by the Holder directing the Company to withhold from the shares of Stock that would otherwise be issued pursuant to the Award, that number of shares having a Fair Market Value on the earlier of the date the Award is exercised or the date the Award is paid (the "Applicable Date") equal to the taxes due. A Holder who elects to pay any taxes due by directing the Company to withhold shares subject to the Award shall notify the Company in writing of his intent to do so. A Holder making such election shall receive the number of shares of Stock determined pursuant to the following formula.

$$\begin{array}{rcl} \text{Number of Shares} & = & \text{Number of Shares Subject to Award} \times \frac{\text{Fair Market Value on Applicable Date} - \text{Taxes Due}}{\text{Fair Market Value on Applicable Date}} \end{array}$$

c. Claim to Awards and employment rights. No employee or other person shall have any claim or right to be granted an Award under the Plan. Neither this Plan nor any action taken hereunder shall be construed as giving any employee any right to be retained in the employ of the Company or a Subsidiary.

d. Beneficiaries. Except as otherwise provided in Section 7, dealing with Options, or in the agreement evidencing an Award, any payment of Awards due under this Plan to a deceased Holder shall be paid to the beneficiary designated by the Holder and filed with the Committee, provided that if the Holder is married, a designation of a person other than the Holder's spouse as his beneficiary with respect to more than 50 percent of the Holder's interest in the Award shall not be effective without the written consent of the Holder's spouse. If no such beneficiary has been designated or survives the Holder, payment shall be made to the person entitled thereto under the Holder's will or the laws of descent and distribution. Subject to the foregoing, a beneficiary designation may be changed or revoked by a Holder at any time provided the change or revocation is filed with the Committee.

e. Nontransferability. Subject to Sections 7d(iii) and 12d, a person's rights and interests under the Plan, including amounts payable, may not be assigned, pledged, or transferred, provided that a person's rights and interests under the Plan may be assigned,

pledged or transferred pursuant to a domestic relations order which satisfies the requirements for a "qualified domestic relations order" set forth in Section 414(p)(1)(A) of the Code.

f. Indemnification. Each person who is or shall have been a member of the Committee or of the Board shall be indemnified and held harmless by the Company against and from any loss, cost, liability, or expense that may be imposed upon or reasonably incurred by him in connection with or resulting from any claim, action, suit, or proceeding to which he may be a party or in which he may be involved by reason of any action or failure to act under the Plan and against and from any and all amounts paid by him in satisfaction of judgment in such action, suit, or proceeding against him. He shall give the Company an opportunity, at its own expense, to handle and defend the same before he undertakes to handle and defend it on his own behalf. The foregoing right of indemnification shall not be exclusive of any other rights of indemnification to which such persons may be entitled under the Company's Articles of Incorporation or By-Laws, as a matter of law, or otherwise, or any power that the Company may have to indemnify them or hold them harmless.

g. Reliance on reports. Each member of the Committee and each member of the Board shall be fully justified in relying or acting in good faith upon any report made by the independent public accountants of the Company and its Subsidiaries and upon any other information furnished in connection with the Plan by any person or persons other than himself. In no event shall any person who is or shall have been a member of the Committee or of the Board be liable for any determination made or other action taken, including the furnishing of information, or failure to act, if in good faith.

h. Relationship to other benefits. No payment under the Plan shall be taken into account in determining any benefits under any pension, retirement, savings, profit sharing, group insurance, welfare or other benefit plan of the Company or any Subsidiary.

i. Expenses. The expenses of administering the Plan shall be borne by the Company and its Subsidiaries.

j. Pronouns. Masculine pronouns and other words of masculine gender shall refer to both men and women.

k. Titles and headings. The titles and headings of the sections in the Plan are for convenience of reference only, and in the event of any conflict, the text of the Plan, rather than such titles or headings, shall control.

l. Fractional shares. No fractional shares of stock shall be issued and the Committee shall determine, in its discretion, whether cash shall be given in lieu of fractional shares or whether such fractional shares shall be eliminated by rounding up or rounding down.

13. CHANGES IN CAPITAL STRUCTURE

In the event a stock dividend is declared upon the Stock, the shares of Stock then subject to each Award (and the number of shares subject thereto) shall be increased proportionately without any change in the aggregate purchase price therefor. In the event the Stock shall be changed into or exchanged for a different number or class of shares of stock or stock of another corporation, whether through reorganization, recapitalization, stock split-up, combination of shares, merger or consolidation, there shall be substituted for each such share of Stock then subject to each Award (and for each share of Stock then subject thereto) the number and class of shares of Stock into which each outstanding share of Stock shall be so exchanged, all without any change in the aggregate purchase price for the shares then subject to each Award.

Subject to any required action by the stockholders, if the Company shall be the surviving or resulting corporation in any merger or consolidation, any Award granted hereunder shall pertain to and apply to the securities or rights to which a holder of the number of shares of Stock subject to the Award would have been entitled; but a dissolution or liquidation of the Company or a merger or consolidation in which the Company is not the surviving or resulting corporation, shall, in the sole discretion of the Committee:

(a) Cause every Award outstanding hereunder to terminate, except that the surviving or resulting corporation, in its absolute and uncontrolled discretion, may tender an option or options to purchase its shares or exercise such rights on terms and conditions, as to the number of shares and rights and otherwise, which shall substantially preserve the rights and benefits of any Award then outstanding here under; or

(b) Subject to the requirements of Section 7e, give each Holder the right to exercise Options and/or other Awards prior to the occurrence of the event otherwise terminating the Options and/or other Awards over such period as the Committee, in its sole and absolute discretion, shall determine.

14. AMENDMENTS AND TERMINATION

The Board may at any time terminate the Plan.

The Board may, at any time, or from time to time, amend or suspend and, if suspended, reinstate, the Plan, in whole or in part, provided, however, that the Board's authority hereunder shall be subject to such restriction as may be required to comply with Section 16(b) of the Code and/or Section 162(m) of the Code.

The Committee may cancel or reduce or otherwise alter a Holder's outstanding Awards thereunder if, in its judgment, (a) such action is necessary to comply with applicable securities laws, or (b) such action would be in the best interests of the Company provided that it obtains the written consent of the Holder.

IN WITNESS WHEREOF, the Company has caused this Plan to be executed by its duly authorized representative this 11th day of December, 1996.
